

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Manish Amin
DOCKET NO.: 23-45062.001-R-1
PARCEL NO.: 16-13-232-005-0000

The parties of record before the Property Tax Appeal Board are Manish Amin, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,342
IMPR.: \$47,647
TOTAL: \$52,989

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story apartment building of masonry exterior construction with 7,038 square feet of gross building area. The building is approximately 134 years old and features a concrete slab foundation and central air conditioning. The property has a 2,544 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables located within the subject's assessment neighborhood and within .52 of a mile of the subject. The comparables consist of 2-story or 3-story class 2-11 buildings of masonry exterior construction ranging in size from 5,661 to 5,937 square feet of gross building area. The

buildings range in age from 122 to 135 years old. Each building has a full basement and two fireplaces. Two comparables each have a 1-car or 3-car garage. The comparables have improvement assessments ranging from \$36,438 to \$40,830 or from \$6.43 to \$7.01 per square foot of gross building area. Based on this evidence, the appellant requested a reduced improvement assessment of \$47,647 or \$6.77 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$67,839. The subject property has an improvement assessment of \$62,497 or \$8.88 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables consist of 2-story or 3-story class 2-11 buildings of masonry exterior construction ranging in size from 3,999 to 5,136 square feet of gross building area. The buildings are 12 or 22 years old. Three buildings each have a full basement, one comparable has a concrete slab foundation, and one comparable has a 3-car garage. The comparables have improvement assessments ranging from \$46,943 to \$65,452 or from \$9.14 to \$13.80 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted a total of seven equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the comparables submitted by the board of review, which differ from the subject in age and building size. The Board finds the comparables presented by the appellant are similar to the subject in location and age, and are more similar to the subject in building size than the comparables submitted by the board of review. These comparables have improvement assessments that range from \$36,438 to \$40,830 or from \$6.43 to \$7.01 per square foot of gross building area. The subject's improvement assessment of \$62,497 or \$8.88 per square foot of gross building area is above the range established by the best comparables in this record. Based on this record, and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
