FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Bader, LLC
DOCKET NO.: 23-45385.001-R-1
PARCEL NO.: 17-06-206-035-0000

The parties of record before the Property Tax Appeal Board are Bader, LLC, the appellant(s), by attorney Nora Devine, of The Devine Law Group, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***A Reduction*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$16,800
IMPR.:	$60,200
TOTAL:	$77,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2,400 square foot parcel of land improved with two improvements. Improvement #1 is an approximately 162-year old, two-story, three unit, dwelling of masonry construction with 2,427 square feet of living area. Improvement #1 is a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance. Improvement #2 is an approximately 162-year old coach house of masonry construction with 682 square feet of living area and is a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance. The subject property is located in Chicago, West Chicago Township, Cook County. The record discloses that the subject property is not owner occupied during the lien year.

The appellant contends overvaluation as the basis of the appeal. In support of the overvaluation argument, the appellant submitted an appraisal estimating the subject property had a market

value of $770,000 as of January 1, 2021. The appraisal was prepared by DaShawn Weaver-Drew, a licensed certified residential real estate appraiser. The appraiser physically inspected the interior and exterior of the subject property on May 4, 2022. Mr. Weaver-Drew relied on the sales comparison approach in which he used sales of five comparable properties in Chicago, IL that took place between June 2019 and August 2020 for amounts ranging from $749,000 to $1,085,000, or from $219.01 to $293.32 per square foot of living area, land included in the sales prices. The appraiser adjusted the sales prices to account for differences between the subject and the comparables. Photographs of the subject dwelling's exterior and interior were included with the appraisal.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $95,981. The subject's assessment reflects a market value of $959,810 or $395.47 per square foot of living area, land included, when using the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10%.

In support of the assessment, the board of review submitted information about sales of two suggested comparable properties. The suggested comparables were sold between December 2021 and January 2023 for amounts ranging from $737,500 to $830,000 or between $281.55 and $320.65 per square foot of living area, land included in the sales prices. The board of review requested that the assessment be confirmed.

In rebuttal, the appellant submitted the Multiple Listing Service (MLS) data sheets for the board of review's suggested comparables reaffirmed its position that the 2023 assessed value for the subject property is excessive and that the total assessment should be reduced.

The matter proceeded to hearing on November 20, 2025. At hearing, the appellant requested to consolidate docket number 23-45385 with docket numbers 21-35153 and 22-45385 regarding the same subject property and within the same triennial. The board of review voiced no objection. The administrative law judge granted consolidating the three cases for hearing purposes only. The appellant presented the testimony of Mr. DaShawn Weaver-Drew, the appraiser who holds an SRA designation. Mr. Weaver-Drew testified he is an Illinois certified real estate appraiser and prepared the appraisal with no objection from the board of review to Mr. Weaver-Drew being called as a witness.

Mr. Weaver-Drew testified that he employed the sales comparison approach to estimate a total market value for the subject. Mr. Weaver-Drew testified that he selected these comparables because they are similar in age, location and property characteristics to the subject. Mr. Weaver-Drew testified to each of the five sales comparables that were utilized in the appraisal and that he made adjustments for condition, amenities, and size. The board of review rested on the evidence previously submitted.

Conclusion of Law

The taxpayer asserts that the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal, the taxpayer must prove the value of the property by a preponderance of the evidence. 86 Ill. Admin. Code §1910.63(e); Winnebago County Bd. of Review v. Property Tax Appeal Bd., 313 Ill. App. 3d 1038, 1043 (2d

Dist. 2000). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill. Admin. Code §1910.65(c). The Board finds the appellant did meet this burden of proof and a reduction in the subject's assessment on this basis is warranted.

The Board finds that the best evidence of the subject's market value is the appraisal submitted by the appellant. That appraisal employed the sales comparison approach and relied upon recent sales of five suggested comparable properties. The appraisal stated that the sale prices of the suggested comparable properties were adjusted to account for differences between them and the subject, taking into account such factors as gross living area, design/features, lot size, age, and location. In contrast, the board of review's evidence consists of unadjusted raw sales figures.

Based on the appraiser's final reconciliation, the Board finds the sales comparison approach is considered to be the most reflective of current market activity. Accordingly, the Board finds the subject property had a fair market value of $770,000 as of the assessment date at issue. Since market value has been established, the level of assessment for the class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10% shall apply here. (86 Ill.Admin.Code §1910.50(c)(2)). Based on the evidence, the Board therefore finds the appellant has proven, by a preponderance of the evidence, that the subject is overvalued, and that a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
