

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Carlos Duprey
DOCKET NO.: 23-47741.001-R-1
PARCEL NO.: 13-09-220-009-0000

The parties of record before the Property Tax Appeal Board are Carlos Duprey, the appellant, by attorney Andrew S. Dziuk, of Andrew Dziuk, Esq. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,740
IMPR.: \$22,684
TOTAL: \$30,424

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story, multi-family building of frame exterior construction with 1,920 square feet of gross building area. The building is approximately 100 years old. Features include a full basement. The property has a 3,870 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the subject's assessment neighborhood. The comparables are reported to be improved with class 2-11 multi-family buildings¹ of frame exterior construction

¹ The appellant reported the comparables provided were multi-family buildings, but disclosed in the grid analysis that there is only one dwelling unit in each comparable building which implies they are single-family dwellings.

with either 1,732 or 1,748 square feet of gross building area. The buildings range in age from 100 to 110 years old. Each comparable has a full basement. Three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$16,064 to \$16,816 or from \$9.19 to \$9.62 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$17,644.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$30,424. The subject property has an improvement assessment of \$22,684 or \$11.81 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the subject's assessment neighborhood. The comparables are reported to be improved with 1-story, 1.5-story, or 2-story, class 2-11 multi-family buildings of frame or masonry exterior construction ranging in size from 1,863 to 1,920 square feet of gross building area. The buildings range in age from 56 to 99 years old. Each comparable has a full basement. Two comparables each have central air conditioning. Three comparables each have a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$18,700 to \$31,560 or from \$9.74 to \$16.68 per square foot of gross building area. The board of review asserts the assessed values per square foot for the submitted comparables support the subject's assessed value as equitable.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested equity comparables for the Board's consideration. The Board finds each of the parties' comparables is located in the subject's assessment neighborhood and have varying degrees of similarity to the subject in property characteristics. Nevertheless, the Board gives diminished weight to board of review comparable #3 which is a substantially newer building than the subject and other comparables in this record. The remaining comparables have improvement assessments ranging from \$16,064 to \$31,560 or from \$9.19 to \$16.68 per square foot of gross building area. The subject's improvement assessment of \$22,684 or \$11.81 per square foot of gross building area falls within the range established by the eight remaining comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
