

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Leopold Wrobel
DOCKET NO.: 23-47838.001-R-1
PARCEL NO.: 13-26-102-043-0000

The parties of record before the Property Tax Appeal Board are Leopold Wrobel, the appellant, by attorney Andrew S. Dziuk, of Andrew Dziuk, Esq. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **a reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,914
IMPR.: \$29,100
TOTAL: \$44,014

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story, multi-family building of masonry exterior construction with 2,946 square feet of gross building area. The building is approximately 111 years old. Features include a full basement and a 2-car garage. The property has a 4,260 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the same assessment neighborhood as the subject. The comparables are improved with class 2-11 multi-family buildings of masonry exterior construction ranging in size from 2,832 to 3,397 square feet of gross building area. The buildings are from 98 to 113

years old. Each comparable has a full basement and a 2-car garage. The comparables have improvement assessments ranging from \$28,563 to \$33,153 or from \$8.66 to \$10.10 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$47,850. The subject property has an improvement assessment of \$32,936 or \$11.18 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the same assessment neighborhood as the subject. The comparables are improved with class 2-11, 2-story multi-family buildings of frame or masonry exterior construction ranging in size from 2,023 to 3,340 square feet of gross building area. The buildings are from 96 to 113 years old. Two comparables each have a slab foundation, and two comparables each have a full basement. Each comparable has from a 1-car to a 2-car garage. The comparables have improvement assessments ranging from \$26,329 to \$37,107 or from \$11.11 to \$14.32 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1 and #3 along with the board of review's comparables which are less similar to the subject in building size and/or foundation type than the other comparables in the record.

The Board finds the best evidence of assessment equity to be the appellant's comparables #2, #4 and #5 which are overall most similar to the subject in location, design, age, building size and most features. These three comparables have improvement assessments ranging from \$28,563 to \$29,080 or from \$9.77 to \$10.10 per square foot of gross building area. The subject's improvement assessment of \$32,936 or \$11.18 per square foot of gross building area falls above the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
