

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tomasz Zalewski
DOCKET NO.: 23-47855.001-R-1
PARCEL NO.: 13-28-320-028-0000

The parties of record before the Property Tax Appeal Board are Tomasz Zalewski, the appellant, by attorney Andrew S. Dziuk, of Andrew Dziuk, Esq. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,583
IMPR.: \$26,420
TOTAL: \$32,003

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story, multi-family building of masonry exterior construction with 2,264 square feet of gross building area. The building is approximately 96 years old. Features include a basement, 2 bathrooms, and a 2-car garage. The property has a 3,720 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the subject's assessment neighborhood and within 0.40 of a mile from the subject. The comparables are improved with class 2-11, multi-family buildings of masonry exterior construction ranging in size from 2,620 to 2,702 square feet of gross building

area. The buildings are from 96 to 108 years old. Each comparable has a basement, 2 or 3 bathrooms, and either a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$17,810 to \$25,001 or from \$6.75 to \$7.40 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$32,003. The subject property has an improvement assessment of \$26,420 or \$11.67 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on three comparables located within the subject's assessment neighborhood and within approximately $\frac{1}{4}$ of a mile from the subject. The comparables are improved with class 2-11, 2-story multi-family buildings of masonry exterior construction containing 2,060 or 2,310 square feet of gross building area. The buildings are 95 or 96 years old. Each comparable has a basement, 2 bathrooms, and a 2-car garage. The comparables have improvement assessments ranging from \$26,420 to \$28,420 or from \$11.87 to \$12.83 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which are less similar to the subject in building size than the board of review's comparables in the record.

The Board gives greater weight to the board of review's comparables which are overall most similar to the subject in location, design, age, building size and other features. These three comparables have improvement assessments ranging from \$26,420 to \$28,420 or from \$11.87 to \$12.83 per square foot of gross building area. The subject's improvement assessment of \$26,420 or \$11.67 per square foot of gross building area matches the board of review comparable #1 with the lowest improvement assessment on an overall basis and falls below the range of the three best comparables on a per square foot of living area basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
