

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gary Becker
DOCKET NO.: 23-48309.001-R-1
PARCEL NO.: 13-03-107-015-0000

The parties of record before the Property Tax Appeal Board are Gary Becker, the appellant(s), by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,160
IMPR.: \$29,484
TOTAL: \$40,644

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry construction with 1,512 square feet of living area. The dwelling is approximately 64 years old. Features of the home include a full basement and a one-car garage. The property has a 4,960 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on five class 2-03 equity comparable properties with varying degrees of similarities to the subject which are located within a 0.48-mile radius of the subject. The improvements ranged: in age from 68 to 71 years; in size from 1,239 to 1,360 square feet of living area; and in improvement assessment from \$13.34 to \$17.38 per square foot

of living area. Appellant submits that this is an owner-occupied residence. Based on this evidence the appellant is seeking a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$42,791. The subject property has an improvement assessment of \$31,631 or \$20.92 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four class 2-03 equity comparable properties with varying degrees of similarities to the subject which are located within ¼-mile radius of the subject. The improvements ranged: in age from 66 to 94 years; in size from 1,113 to 1,440 square feet of living area; and in improvement assessments from \$19.43 to \$27.67 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine equity comparable properties for the Board's consideration in determining assessment equity. The Board finds the best evidence of assessment equity to be appellant's comparables #1, #2, #3, #4, and #5 and board of review's comparables #2 and #3. Appellant's comparables #1, #2, #3, #4, and #5 were similar to the subject in age and size. One of these comparables had the same bathrooms as the subject while the others had one half bathroom less. Two of these comparables had full basements like the subject while the others had slab foundations. Four of the comparables had one-car garages like the subject while the other had no garage. Four of these comparables had no central air conditioning like the subject while the other had central air conditioning. Board of review's comparables #2 and #3 were similar to the subject in age, size, and full basement. One of these comparables had the same bathrooms as the subject and the other had one half bathroom less. Both of these comparables had central air conditioning while the subject had no central air conditioning. One of these comparables had a one-car garage like the subject while the other had a two-car garage. These comparable properties were similar to the subject and had improvement assessments that ranged from \$13.34 to \$20.71 per square foot of living area. The subject's improvement assessment of \$20.92 per square foot of living area falls above the range established by the best comparable properties in this record. Based on this record the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
