

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jozef Nowobilski
DOCKET NO.: 23-48490.001-R-1
PARCEL NO.: 24-06-430-057-0000

The parties of record before the Property Tax Appeal Board are Jozef Nowobilski, the appellant, by attorney Andrew S. Dziuk, of Andrew Dziuk, Esq. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,149
IMPR.: \$40,850
TOTAL: \$46,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 2,730 square feet of living area. The dwelling is approximately 21 years old. The home features a full basement, central air conditioning, a fireplace and a 2-car garage. The property has a 10,695 square foot site and is located in Oak Lawn, Worth Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables located within the same assessment neighborhood as the subject. The comparables consist of class 2-78, 2-story dwellings of masonry exterior construction ranging in size from 2,613 to 2,748 square feet of living area. The dwellings are from 18 to 25 years old. Each comparable

has a full basement, a fireplace and either a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$35,406 to \$38,636 or from \$13.16 to \$14.60 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$46,999. The subject property has an improvement assessment of \$40,850 or \$14.96 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four comparables located within the same assessment neighborhood as the subject. The comparables consist of a class 2-78, 2-story or class 2-34, multi-level dwellings of masonry or frame and masonry exterior construction ranging in size from 1,833 to 2,672 square feet of living area. The dwellings are 18 or 22 years old. Each comparable has a full basement with one having finished area, central air conditioning, a fireplace and either a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$34,850 to \$40,173 or from \$17.30 to \$19.01 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board gives less weight to the board of review's comparables #1, #2, and #3 due to differences relative to the subject in design and/or dwelling size.

The Board finds the best evidence of assessment equity to be the appellant's comparables and board of review comparable #4 which are overall most similar to the subject in location, design, age, and dwelling size with varying degrees of similarity in other features. The appellant's comparables each lack central air conditioning, which the subject features, suggesting upward adjustments for this difference would be necessary to make them more equivalent to the subject. The best comparables have improvement assessments ranging from \$35,406 to \$40,173 or from \$13.16 to \$15.03 per square foot of living area. The subject's improvement assessment of \$40,850 or \$14.96 per square foot of living area falls above the range established by the best comparables in the record on an overall improvement assessment basis and within the range on a per-square-foot basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
