

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Corey Gooch
DOCKET NO.: 23-48538.001-R-1
PARCEL NO.: 20-35-407-013-0000

The parties of record before the Property Tax Appeal Board are Corey Gooch, the appellant, by attorney Eric Feldman of Eric Feldman & Assoc. P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **a reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,687
IMPR.: \$7,534
TOTAL: \$12,221

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry exterior construction with 1,166 square feet of living area. The dwelling is approximately 97 years old. Features of the property include a full basement and a 2-car garage. The property has a 3,750 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code as the subject and are located within .05 of a mile from the subject property. The comparables are class 2-03 properties improved with one-story dwellings of masonry exterior construction ranging in size from 1,125 to 1,209 square feet of living area. The dwellings range in age from 96 to 98 years old. Each comparable has a full basement and

four comparables each have either a 1-car, a 1.5-car or a 2-car garage. Comparable #3 has a fireplace. The comparables each have an improvement assessment of \$7,313 or from \$6.05 to \$6.50 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement be reduced to \$7,404 or \$6.35 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$21,999. The subject property has an improvement assessment of \$17,312 or \$14.85 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on two equity comparables that have the same assessment neighborhood code as the subject and are located within a subarea of the subject. The comparables are class 2-05 properties improved with two-story dwellings of frame and masonry exterior construction containing 1,654 or 1,941 square feet of living area. The dwellings are 99 or 107 years old. The comparables each have a full basement within finished area, central air conditioning and either a 1-car or a 2-car garage. Comparable #1 has a fireplace. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted seven comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparable #5 due to its lack of a garage, a feature of the subject. The Board has given reduced weight to the board of review comparables which differ from the subject in story height, living area, central air conditioning and basement finish, when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #2, #3 and #4, which are overall more similar to the subject in location, dwelling size, story height, age and some features. These four comparables each have an improvement assessment of \$7,313 or from \$6.05 to \$6.50 per square foot of living area. The subject's improvement assessment of \$17,312 or \$14.85 per square foot of living area falls above the range established by the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds the subject's improvement assessment is excessive. Based on this record, the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
