

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marc Ovadia
DOCKET NO.: 23-48895.001-R-1
PARCEL NO.: 04-35-301-029-0000

The parties of record before the Property Tax Appeal Board are Marc Ovadia, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$16,817
IMPR.: \$80,169
TOTAL: \$96,986

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a 2-story dwelling of masonry exterior construction containing 3,247 square feet of living area. The dwelling is approximately 14 years old. Features of the home include a full basement with finished area,¹ 4½ bathrooms, central air conditioning, a fireplace and a 2-car garage. The property has a 10,511 square foot site and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four comparables located within the subject's same assessment neighborhood and from 0.39 of a mile to 1.07 miles

¹ The board of review disclosed the subject has a full basement finished with a formal recreation room, which was unrefuted by the appellant.

from the subject property. The comparables consist of class 2-78, 2-story dwellings of masonry exterior construction ranging in size from 3,067 to 3,520 square feet of living area. The homes are 15 to 32 years old. Three comparables have full basements with "0" reported for the finished basement area. One comparable has a slab foundation. Each comparable has from 2 to 4 full bathrooms, central air conditioning and a 2-car garage. Two comparables each have 1 half bathroom, and three comparables each have 1 or 2 fireplaces. The comparables have improvement assessments ranging from \$67,974 to \$79,963 or from \$21.18 to \$22.95 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$71,563 or \$22.04 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$96,986. The subject property has an improvement assessment of \$80,169 or \$24.69 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables located within the subject's same assessment neighborhood and within approximately $\frac{1}{4}$ of a mile from the subject property. The comparables consist of class 2-78, 2-story dwellings of frame or masonry exterior construction ranging in size from 3,319 to 3,626 square feet of living area. The homes are from 4 to 17 years old. Each comparable has a full basement with three having finished area, 2 to 5 full and 1 half bathrooms, central air conditioning and a 2-car or a 3-car garage. Three comparables each have 2 fireplaces. The comparables have improvement assessments ranging from \$88,949 to \$98,011 or from \$25.29 to \$27.03 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

In written rebuttal, the appellant compared the different construction types between the subject property and the board of review comparables #1 and #4.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #2 and #4 due to differences in their location, older age, and/or dissimilar foundation type when compared to the subject. The Board also gives less weight to the board of review comparables #2 and #3 which are less similar to the subject in dwelling size than the other comparables in the record.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables. These comparables are overall most similar to the subject in location, age, and dwelling size but

have varying degrees of similarity to the subject in other features. These four comparables have improvement assessments ranging from \$67,974 to \$89,840 or from \$21.18 to \$26.80 per square foot of living area. The subject's improvement assessment of \$80,169 or \$24.69 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
