

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Milad Nourahmadi
DOCKET NO.: 23-49014.001-R-1
PARCEL NO.: 18-31-307-026-0000

The parties of record before the Property Tax Appeal Board are Milad Nourahmadi, the appellant, by Dora Cornelio, attorney-at-law of Schmidt Salzman & Moran, Ltd. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$17,051
IMPR.: \$107,741
TOTAL: \$124,792

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 20,668 square foot site improved with a two-story dwelling of masonry exterior construction containing 4,644 square feet of living area that is approximately 22 years old. Features of the property include a full basement with a formal recreation room, central air conditioning, one fireplace, 4½ bathrooms, and a 3-car garage. The property is located in Burr Ridge, Lyons Township, Cook County. The subject is a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity with respect to the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables composed of class 2-08 properties improved with two-story dwellings of frame, masonry, or frame and masonry exterior construction that range in size from 4,346 to 4,947 square feet of living area and are 30 to 37 years old. Each comparable has a full basement with a

recreation room, central air conditioning, and a 3-car garage. The comparables have 1, 2 or 3 fireplaces and 2½, 3½ or 4½ bathrooms. These properties have the same neighborhood code as the subject property, however, the appellant indicated “unknown” as to the proximity of the comparables to the subject property. Their improvement assessments range from \$49,253 to \$61,000 or from \$10.01 to \$12.33 per square foot of living area. The appellant requested the subject’s improvement assessment be reduced to \$52,848.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$124,792. The subject property has an improvement assessment of \$107,741 or \$23.20 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables consisting of class 2-08 properties improved with two-story dwellings of masonry exterior construction that range in size from 4,243 to 4,692 square feet of living area and are 18 or 22 years old. Each property has a full or partial basement with a formal recreation room, central air conditioning, one or two fireplaces, three or four full bathrooms, one or two half bathrooms, and a 3-car garage. The comparables have the same neighborhood code as the subject and are located in the same block or ¼ of a mile from the subject property. Comparables #1 and #2 are located along the same street as the subject property. The comparables have improvement assessments range from \$101,026 to \$127,709 or from \$23.71 to \$27.22 per square foot of living area. The board of review contends the building assessed value per square foot for the comparables are the same or higher than the subject, which supports the assessed value as equitable.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on nine equity comparables with the same classification code and neighborhood code as the subject property to support their respective positions. The Board finds the best evidence of assessment equity to be the board of review comparables that are more similar to the subject in age than are the comparables submitted by the appellant. Additionally, the board of review disclosed its comparables are located in the same block or ¼ of a mile from the subject property while the appellant reported “unknown” as to the proximity of the comparables to subject property, which further detracts from the weight given the appellant’s evidence. The board of review comparables are relatively similar to the subject in size and features with improvement assessments that range from \$101,026 to \$127,709 or from \$23.71 to \$27.22 per square foot of living area. The two comparables located along the same street as the subject have improvement assessments of \$114,775 and \$101,026 or \$25.96 and \$23.81 per square foot of living area, respectively. The subject's improvement assessment of \$107,741 or \$23.20 per square foot of living area falls within the range of the total improvement assessments but is below the range on a per square foot of living area basis as established by the best

comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
