

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gabriel Presler
DOCKET NO.: 23-49018.001-R-1
PARCEL NO.: 20-14-222-006-0000

The parties of record before the Property Tax Appeal Board are Gabriel Presler, the appellant, by attorney Eric Feldman of Eric Feldman & Assoc. P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **a reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,875
IMPR.: \$70,950
TOTAL: \$90,825

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 2,838 square feet of living area. The dwelling is approximately 128 years old. The property features a full basement, 3½ bathrooms and two fireplaces. The property has a 3,975 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-10, old style row house or townhome, property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within .35 of a mile from the subject property, three of which are located along the same street as the subject. The comparables are improved with

two-story or three-story dwellings of masonry exterior construction ranging in size from 2,578 to 2,812 square feet of living area. The dwellings are from 125 to 140 years old. Each comparable has a full basement and either 2, 2½ or 3½ bathrooms. Four comparables each have a fireplace. The comparables have improvement assessments that range from \$51,560 to \$67,595 or from \$18.85 to \$25.53 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$63,656 or \$22.43 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$100,749. The subject property has an improvement assessment of \$80,874 or \$28.50 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within the same block or approximately ¼ of a mile from the subject property, three of which are also along the same street as the subject property. The comparables are improved with two-story dwellings of masonry exterior construction ranging in size from 2,760 to 2,996 square feet of living area. The dwellings range in age from 113 to 128 years old. The comparables each have a full basement, two of which have finished area. Each comparables has 2½ or 3½ bathrooms, where two comparables each have an additional half bath. Two comparables have central air conditioning and each comparables has from one to three fireplaces. The comparables have improvement assessments ranging from \$74,648 to \$86,483 or from \$26.90 to \$30.52 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #1 and #4 due to differences from the subject in age and story height. The Board has given reduced weight to board of review comparables #1, #2 and #3 which differ from the subject in basement finish or age. Additionally, the Board finds the appellant's comparable #1 and board of review comparables #2 and #3 have central air conditioning, unlike the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #2, #3 and #5, along with board of review comparable #4, which are similar to the subject in location, dwelling size, story height and age. However, the Board finds the comparables have varying

degrees of similarity when compared to the subject in bathroom count and fireplace count, suggesting adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, the comparables have improvement assessments that range from \$53,000 to \$84,240 or from \$18.85 to \$30.52 per square foot of living area. The subject's improvement assessment of \$80,874 or \$28.50 per square foot of living area falls at the upper end of the range established by the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds the subject's improvement assessment is excessive. Based on this record, the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
