

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jeff Brown
DOCKET NO.: 23-49279.001-R-1
PARCEL NO.: 04-17-304-024-0000

The parties of record before the Property Tax Appeal Board are Jeff Brown, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$20,608
IMPR.: \$29,445
TOTAL: \$50,053

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 2,901 square feet of living area. The dwelling is approximately 50 years old. Features of the home include a partial basement, central air conditioning, a fireplace and a 2-car garage. The property has a 14,720 square foot site and is located in Northbrook, Northfield Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five comparables that have the same neighborhood code as the subject and located within .60 of a mile from the subject. The comparables are improved with class 2-78 properties improved with 2-story dwellings of frame and masonry exterior construction ranging in size from 3,055 to 3,202 square

feet of living area. The dwellings are 45 to 56 years old. The comparables each have a partial or a full basement, central air conditioning, one fireplace and a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$28,065 to \$34,750 or from \$9.29 to \$11.19 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$60,178. The subject property has an improvement assessment of \$39,570 or \$13.64 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same neighborhood code as the subject. One comparable is located in the subject's "subarea". The comparables are class 2-78 properties improved with 2-story dwellings of frame and masonry exterior construction ranging in size from 3,218 to 3,662 square feet of living area. The dwellings are 33 to 50 years old and have partial or full basements, one with finished area. The comparables each have central air conditioning, one fireplace and a 2-car to a 3-car garage. The comparables have improvement assessments ranging from \$51,100 to \$57,948 or from \$15.82 to \$16.02 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal the appellant noted board of review comparables #1 and #4 differ from the subject in living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains nine equity comparables for the Board's consideration. The Board gives less weight to the board of review comparables which are less similar to the subject dwelling in size, age and/or have finished basement area, a feature the subject lacks.

The Board finds the best evidence of assessment equity to be the appellant's comparables which overall are more similar to the subject in location, age, dwelling size and features. These comparables have improvement assessments ranging from \$28,065 to \$34,750 or from \$9.29 to \$11.19 per square foot of living area. The subject has an improvement assessment of \$39,570 or \$13.64 per square foot of living area, which falls above the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant proved by clear and convincing evidence that the subject's improvement assessment was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
