

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Myrna Eiserman
DOCKET NO.: 23-49320.001-R-1
PARCEL NO.: 04-23-304-042-0000

The parties of record before the Property Tax Appeal Board are Myrna Eiserman, the appellant, by Michael R. O'Malley, attorney-at-law of Schmidt Salzman & Moran, Ltd. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,001
IMPR.: \$50,000
TOTAL: \$59,001

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3,259 square foot site improved with a two-story townhouse of frame and masonry exterior construction containing 2,481 square feet of living area. The dwelling is approximately 23 years old. Features of the property include an unfinished basement, central air conditioning, one fireplace, 2½ bathrooms and a 2-car garage. The property is in Glenview, Northfield Township, Cook County. The subject is a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables composed of class 2-95 properties improved with two-story townhouses of frame, masonry or frame and masonry exterior construction that range in size from 2,296 to 2,645 square feet of living area. The homes are 23 to 34 years old. Each comparable has a full

basement, with four having recreation rooms. Each property has central air conditioning, one fireplace, 2½ bathrooms, and a 2-car garage. The comparables have the same neighborhood code as the subject property but the appellant indicated “unknown” as to the proximity of the comparables to the subject property. Their improvement assessments range from \$33,000 to \$38,815 or from \$13.12 to \$14.67 per square foot of living area. The appellant requested the subject’s improvement assessment be reduced to \$35,651.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$59,001. The subject property has an improvement assessment of \$50,000 or \$20.15 per square foot of living area. In support of the contention of the correct assessment the board of review submitted information on four equity comparables composed of class 2-95 properties, each improved with a two-story townhouse of frame and masonry exterior construction with 2,576 square feet of living area. The comparables are 23 or 24 years old. Each property has an unfinished partial basement, central air conditioning, one fireplace, 2½ bathrooms and a 2-car garage. The comparables have the same neighborhood code as the subject property and are in the same block and along the same street as the subject property. Each comparable has an improvement assessment of \$56,000 or \$21.74 per square foot of living area.

The board of review asserted the appellant’s comparables are dissimilar to the subject in age (older) and proximity (much farther away).

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on nine equity comparables with the same classification code and neighborhood code as the subject property to support their respective positions. The Board finds the best evidence of assessment equity to be the board of review comparables that are more similar to the subject in location and age than are the comparables provided by the appellant. Each the board of review comparable is located along the same street and within the same block as the subject property and has the same features as the subject property. Each board of review comparable has an improvement assessment of \$56,000 or \$21.74 per square foot of living area. The subject's improvement assessment of \$50,000 or \$20.15 per square foot of living area falls below the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
