

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Larry Walker
DOCKET NO.: 23-49348.001-R-1
PARCEL NO.: 13-26-116-013-0000

The parties of record before the Property Tax Appeal Board are Larry Walker, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,503
IMPR.: \$30,048
TOTAL: \$40,551

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story, multi-family building of frame exterior construction with 2,268 square feet of gross building area. The building is approximately 113 years old. Features include a full basement, central air conditioning and a fireplace. The property has a 3,000 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the subject's assessment neighborhood and within 0.58 of a mile from the subject. The comparables are improved with class 2-11, 1.5-story or 2-story multi-family buildings of frame exterior construction ranging in size from 1,810 to 2,721 square feet of

gross building area. The buildings are from 110 to 126 years old. Three comparables each have a slab or a crawl space foundation, and two comparables each have a full basement. One comparable has central air conditioning, each comparable has 2 fireplaces, and four comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$8,676 to \$15,165 or from \$4.79 to \$6.06 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$40,551. The subject property has an improvement assessment of \$30,048 or \$13.25 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on three comparables located within the same assessment neighborhood and subarea as the subject. The comparables are improved with class 2-11, 2-story multi-family buildings of frame or masonry exterior construction ranging in size from 1,584 to 2,452 square feet of gross building area. The buildings are from 107 to 113 years old. Each comparable has a full basement and a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$27,796 to \$52,106 or from \$16.99 to \$21.25 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration which are located in the subject's assessment neighborhood but have varying degrees of similarity to the subject in age, building size, foundation type, and other features. Nevertheless, the Board gives less weight to the appellant's comparables #1, #2, #3 and #5 as well as the board of review comparables #1 and #3 which are less similar to the subject in building size, design and/or foundation type than the other comparables in the record.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables. These comparables are most similar to the subject in design, age, building size and foundation type but still require adjustments for differences in other features. These two comparables have improvement assessments of \$13,877 and \$52,106 or \$6.06 and \$21.25 per square foot of gross building area. The subject's improvement assessment of \$30,048 or \$13.25 per square foot of gross building area falls is bracketed by the two most similar comparables in the record. After considering adjustments to the two most similar comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence

that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
