

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jason Heidemann  
DOCKET NO.: 23-49483.001-R-1  
PARCEL NO.: 24-15-119-078-0000

The parties of record before the Property Tax Appeal Board are Jason Heidemann, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$7,182  
**IMPR.:** \$48,818  
**TOTAL:** \$56,000

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of masonry exterior construction with 3,960 square feet of living area. The home is approximately 7 years old. Features include a full basement, central air conditioning, and a 2-car garage. The property has a 9,576 square foot site and is located in Oak Lawn, Worth Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with 2-story, class 2-08 dwellings of masonry exterior construction ranging in size from 3,807 to 4,657 square feet of living area. The homes range in age from 21 to 54 years old. Each comparable has a full basement, central air conditioning, and a 2-car or a 2.5-car garage.

The comparables have improvement assessments ranging from \$40,215 to \$50,015 or from \$9.84 to \$11.61 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$56,000. The subject property has an improvement assessment of \$48,818 or \$12.33 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables, none of which are located within the subject's assessment neighborhood. The comparables are improved with 2-story, class 2-08 dwellings of frame, masonry, or frame and masonry exterior construction ranging in size from 3,994 to 4,180 square feet of living area. The homes range in age from 1 to 16 years old. Each comparable has a full basement, central air conditioning, and from a 2-car to a 3-car garage. The comparables have improvement assessments ranging from \$54,246 to \$61,000 or from \$13.25 to \$15.16 per square foot of living area.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables for differences relative to the subject in age and/or dwelling size. The Board also gives less weight to board of review comparable #4 which is reported to be 1 year old, representing a newly constructed dwelling, in contrast to the 7 year old age of the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2, and #3 which are similar to the subject in design/class, age, dwelling size, and other features. These comparables have improvement assessments ranging from \$54,246 to \$57,384 or from \$13.25 to \$14.33 per square foot of living area. The subject's improvement assessment of \$48,818 or \$12.33 per square foot of living area falls below the range established by the most similar comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
