

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sony Thevalakara  
DOCKET NO.: 23-50055.001-R-1  
PARCEL NO.: 15-08-425-032-0000

The parties of record before the Property Tax Appeal Board are Sony Thevalakara, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$3,027  
**IMPR.:** \$45,972  
**TOTAL:** \$48,999

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story multi-family building of masonry exterior construction with 5,205 square feet of gross building area. The building is approximately 60 years old. Features of the building include a full basement and six full bathrooms. The property has an approximately 5,504 square foot site and is located in Hillside, Proviso Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted five equity comparables that are located in the same assessment neighborhood code as the subject. The comparables are improved with class 2-11, 2-story buildings of masonry exterior construction that range in size from 5,306 to 5,796 square feet of gross building area. The buildings range in age from 60 to 62 years old. Each comparable has a full basement and either five or six full bathrooms. The comparables have improvement assessments that range from \$18,470 to \$35,935 or from \$3.27 to \$6.24 per square

foot of gross building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$32,739 or \$6.29 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$48,999. The subject property has an improvement assessment of \$45,972 or \$8.83 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject. The comparables are improved with class 2-11 or 2-12, 2-story buildings of masonry exterior construction that range in size from 3,644 to 5,065 square feet of gross building area. The buildings are 62 or 63 years old. Each comparable has a full or partial basement and three or six full bathrooms. One comparable has two-half bathrooms and one comparable has a 2.5-car garage. The comparables have improvement assessments that range from \$40,356 to \$45,748 or from \$8.97 to \$11.14 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine suggested equity comparables for the Board's consideration. The Board has given less weight to appellant's comparables #2, #4 and #5 as well as board of review comparables #2, #3 and #4 due to their differences from the subject in building size.

The Board finds the best evidence of assessment equity to be appellant's comparables #1 and #3 along with board of review comparable #1. The Board finds that these comparables are most similar to the subject in location, age, design, building size and some features. These most similar comparables have improvement assessments ranging from \$33,094 to \$45,456 or from \$6.16 to \$8.97 per square foot of gross building area. The subject's improvement assessment of \$45,972 or \$8.83 per square foot of gross building area falls within the range of the best comparables in this record per square foot basis but slightly greater on an overall improvement basis. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
