

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John & Atha Stolarz
DOCKET NO.: 23-50113.001-R-1
PARCEL NO.: 15-08-433-022-0000

The parties of record before the Property Tax Appeal Board are John & Atha Stolarz, the appellants, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,657
IMPR.: \$14,342
TOTAL: \$17,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 858 square feet of living area. The dwelling is approximately 72 years old. Features of the home include a crawl space foundation. The property has an approximately 6,650 square foot site and is located in Hillside, Proviso Township, Cook County. The subject is classified as a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellants submitted three equity comparables that are located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-02, 1-story dwellings of masonry exterior construction that range in size from 896 to 998 square feet of living area. The dwellings range in age from 34 to 73 years old. Each comparable has a crawl space foundation and a 1-car garage. Two comparables each have central air conditioning one comparable has one fireplace. The comparables have improvement assessments that range from \$14,315 to \$15,527 or from \$14.37 to \$15.98 per square foot of

living area. Based on this evidence, the appellants requested the subject's improvement assessment be reduced to \$13,248 or \$15.44 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$17,999. The subject property has an improvement assessment of \$14,392 or \$16.72 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-02, 1-story dwellings of masonry exterior construction that each contain 858 square feet of living area. The dwellings range in age from 68 to 72 years old. Each comparable has a slab or crawl space foundation and a 1.5-car or 2-car garage. Three comparables each have central air conditioning. The comparables have improvement assessments that range from \$14,947 to \$16,342 or from \$17.42 to \$19.05 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayers contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains seven suggested equity comparables for the Board's consideration. The Board has given less weight to appellants' comparables #1, and #2 as well as board of review comparables #1, #2 and #3 due to their differences from the subject in central air conditioning amenity and/or age.

The Board finds the best evidence of assessment equity to be appellants' comparable #3 along with board of review comparable #4. The Board finds that these two comparables are most similar to the subject in design, age, foundation, dwelling size and some features. These two most similar comparables have improvement assessments of \$14,315 and \$16,315 or \$15.98 and \$19.02 per square foot of living area. The subject's improvement assessment of \$14,342 or \$16.72 per square foot of living area is bracketed by the two best comparables in this record. Based on this record and after considering adjustments to the two best comparables for differences from the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
