

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: George Miller
DOCKET NO.: 23-52140.001-R-1
PARCEL NO.: 04-09-107-031-0000

The parties of record before the Property Tax Appeal Board are George Miller, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,931
IMPR.: \$47,105
TOTAL: \$63,036

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 2,309 square feet of living area. The dwelling is approximately 57 year old. Features of the property include a crawl space foundation, central air conditioning, two fireplaces and a two-car garage. The property has a 10,621 square foot site and is located in Northbrook, Northfield Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located within .7 of a mile from the subject property. The comparables are class 2-78 properties improved with two-story dwellings of frame and masonry exterior construction ranging in size

from 2,461 to 2,664 square feet of living area. The dwellings range in age from 58 to 61 years old. Each comparable has a partial basement, central air conditioning, one or two fireplaces and a two-car garage. The comparables have improvement assessments that range from \$42,421 to \$46,354 or from \$17.10 to \$17.48 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$39,946 or \$17.30 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$63,036. The subject property has an improvement assessment of \$47,105 or \$20.40 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located within the same block or approximately ¼ of a mile from the subject property, one of which is also along the same street as the subject. The comparables are class 2-78 properties improved with two-story dwellings of frame and masonry exterior construction ranging in size from 2,266 to 2,434 square feet of living area. The dwellings range in age from 54 to 57 years old. The comparables each have a full or partial basement, one with finished area. Each comparable has central air conditioning, a fireplace and either a one-car or a two-car garage. The comparables have improvement assessments that range from \$46,829 to \$58,171 or from \$20.67 to \$24.15 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #3 and #4 due to their larger dwelling sizes, when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #2 and the four comparables submitted by the board of review, which are similar to the subject in location, dwelling size, design and age. However, the Board finds all five comparables have a basement foundation, unlike the subject, suggesting downward adjustments for this difference would be required to make the comparables more equivalent to the subject. The comparables also have varying degrees of similarity when compared to the subject in bathroom count, fireplace count and garage capacity, suggesting additional adjustments would be necessary for these differences. Nevertheless, these comparables have improvement assessments ranging from \$42,421 to \$58,171 or from \$17.24 to \$24.15 per square foot of living area. The subject's

improvement assessment of \$47,105 or \$20.40 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

Based on this record, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
