

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Donald F. & Heather L. Trainor  
DOCKET NO.: 23-52224.001-R-1  
PARCEL NO.: 24-09-314-016-0000

The parties of record before the Property Tax Appeal Board are Donald F, & Heather L, Trainor, the appellants, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$3,756  
**IMPR.:** \$21,212  
**TOTAL:** \$24,968

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 1-story dwelling of masonry exterior construction with 1,217 square feet of living area. The dwelling is approximately 63 years old. Features include a partial basement, central air conditioning, and a 2-car garage. The property has a 6,260 square foot site and is located in Oak Lawn, Worth Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellants submitted information on three equity comparables located within the subject's assessment neighborhood and within 0.9 of a mile from the subject property. The comparables are improved with 1-story, class 2-03 dwellings of masonry exterior construction ranging in size from 1,575 to 1,616 square feet of living area. The dwellings are either 66 or 67 years old. Each comparable has a full basement and a 2-car garage.

Two comparables each have central air conditioning. The comparables have improvement assessments ranging from \$21,234 to \$22,750 or from \$13.14 to \$14.17 per square foot of living area. Based on this evidence, the appellants requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$24,968. The subject property has an improvement assessment of \$21,212 or \$17.43 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparables located within the subject's assessment neighborhood and on the same block, two of which are also along the same street as the subject property. The comparables are improved with 1-story, class 2-03 dwellings of masonry exterior construction ranging in size from 1,209 to 1,236 square feet of living area. The dwellings range in age from 62 to 66 years old. Each comparable has a full or partial basement and a 2-car garage. Three comparables each have central air conditioning. The comparables have improvement assessments ranging from \$21,244 to \$23,244 or from \$17.57 to \$19.04 per square foot of living area.

### **Conclusion of Law**

The appellants contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellants' comparables, as well as board of review comparable #3, which are less similar to the subject in dwelling size than other comparables in this record and/or lack central air conditioning, which is a feature of the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables #1, #2, and #4 which are overall more similar to the subject in location, design/class, age, dwelling size, and other features. The best comparables have improvement assessments ranging from \$21,244 to \$23,244 or from \$17.57 to \$19.04 per square foot of living area. The subject property's improvement assessment of \$21,212 or \$17.43 per square foot of living falls below the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellants did not demonstrate that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
