

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Luan Kadriu
DOCKET NO.: 23-52285.001-R-1
PARCEL NO.: 15-13-418-037-0000

The parties of record before the Property Tax Appeal Board are Luan Kadriu, the appellant, by Dimitrios Trivizas, attorney-at-law of Dimitrios P. Trivizas, Ltd. in Skokie, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,343
IMPR.: \$26,500
TOTAL: \$28,843

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a one-story dwelling of masonry exterior construction containing 1,036 square feet of living area. The dwelling is approximately 53 years old. Features of the property include a full basement, 1½ bathrooms and a 2-car garage. The property has a 3,125 square foot site located in Forest Park, Proviso Township, Cook County. The subject is a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on nine equity comparables consisting of class 2-03 properties improved with one-story dwellings of stucco, frame or masonry exterior construction that range in size from 1,039 to 1,128 square feet of living area. The dwellings are from 61 to 125 years old. Seven comparables have full basements

and two comparables have slab foundations. Each comparable has 1, 1½ or 3 bathrooms and a 1-car, 1½-car, 2-car or 2½-car garage. These properties have the same neighborhood code as the subject property and are located from approximately .1 to .5 of a mile from the subject. The comparables have improvement assessments ranging from \$20,250 to \$23,513 or from \$18.86 to \$21.38 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$20,668.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$28,843. The subject property has an improvement assessment of \$26,500 or \$25.58 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables consisting of class 2-03 properties improved with one-story dwellings of masonry exterior construction that range in size from 1,026 to 1,121 square feet of living area. The homes are 51 to 57 years old. Each property has a full basement with two having finished area, 1 or 1½ bathrooms, and a 2-car garage. One comparable has central air conditioning. These properties have the same neighborhood code as the subject and are located in the same block or ¼ of a mile from the subject property. Their improvement assessments range from \$26,677 to \$29,656 or from \$26.00 to \$27.42 per square foot of living area. The board of review contends the building assessed value per square foot for the comparables are the same or higher than the subject, which supports the assessed value as equitable.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the board of review comparables that are more similar to the subject in age than are the comparables submitted by the appellant. The board of review comparables are also similar to the subject in location, style, size and most features. These comparables have improvement assessments that range from \$26,677 to \$29,656 or from \$26.00 to \$27.42 per square foot of living area. The subject's improvement assessment of \$26,500 or \$25.58 per square foot of living area falls below the range established by the best comparables in this record. Less weight is given the appellant's comparables due to differences from the subject dwelling in age as well as the fact two comparables have slab foundations, inferior to the subject's full basement. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
