

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jay Bach
DOCKET NO.: 23-52747.001-R-1
PARCEL NO.: 04-24-407-031-0000

The parties of record before the Property Tax Appeal Board are Jay Bach, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,000
IMPR.: \$26,700
TOTAL: \$40,700

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 1,535 square feet of living area. The dwelling is approximately 75 years old. Features of the home include a concrete slab foundation, one fireplace and a 1-car garage. The property has an approximately 10,000 square foot site and is located in Northfield, Northfield Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 1-story class 2-03 dwellings of frame exterior construction ranging in size from 1,473 to 1,563 square feet of living area that are 69 or 70 years old. Three

comparables have a concrete slab foundation and one comparable has a crawl space foundation. Three dwellings each have one fireplace and each home has a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$24,069 to \$27,198 or from \$16.34 to \$17.40 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$25,942 or \$16.90 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$44,178. The subject property has an improvement assessment of \$30,178 or \$19.66 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 1-story or 1.5-story class 2-03 dwellings of frame or masonry exterior construction ranging in size from 1,433 to 1,676 square feet of living area. The homes are from 68 to 94 years old. Three comparables have a basement with finished area and one comparable has a concrete slab foundation. Two dwellings have central air conditioning, two homes each have one fireplace and each comparable has a 2-car garage. The comparables have improvement assessments ranging from \$30,260 to \$43,870 or from \$21.12 to \$28.09 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives reduced weight to appellant comparables #2 and #4 along with the board of review comparables which are less similar to the subject in age, foundation type, garage capacity and/or presence of central air conditioning.

The Board finds the best evidence of assessment equity to be appellant comparables #1 and #3 which are more similar to the subject in location, age, classification, dwelling size and most features. These two comparables have improvement assessments of \$24,069 and \$26,240 or \$16.34 and \$17.40 per square foot of living area. The subject's improvement assessment of \$30,178 or \$19.66 per square foot of living area falls above the two best comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
