

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Daniel Stumpf
DOCKET NO.: 23-52833.001-R-1
PARCEL NO.: 24-15-119-080-0000

The parties of record before the Property Tax Appeal Board are Daniel Stumpf, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,176
IMPR.: \$34,740
TOTAL: \$41,916

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 2,469 square feet of living area. The dwelling is approximately 7 years old. Features include a full basement, central air conditioning, and a 2-car garage. The property has a 9,569 square foot site and is located in Oak Lawn, Worth Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with 1-story, class 2-04 dwellings of masonry exterior construction ranging in size from 2,086 to 2,129 square feet of living area. The homes range in age from 39 to 59 years old. Each comparable has a partial basement and central air conditioning. Three comparables each

have a 2-car garage. The comparables have improvement assessments ranging from \$24,351 to \$27,904 or from \$11.67 to \$13.11 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$41,916. The subject property has an improvement assessment of \$34,740 or \$14.07 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables, one of which is located within the subject's assessment neighborhood. The comparables are improved with 1-story, class 2-04 dwellings of masonry or frame and masonry exterior construction ranging in size from 1,815 to 1,885 square feet of living area. The homes range in age from 37 to 42 years old. Each comparable has a full or partial basement and a 2-car garage. Three comparables each have central air conditioning. The comparables have improvement assessments ranging from \$26,414 to \$29,334 or from \$14.43 to \$15.63 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration, none of which are truly similar to the subject in overall property characteristics. The Board finds each of the parties' comparables to be an older, smaller home than the subject. The comparables have improvement assessments ranging from \$24,351 to \$29,334 or from \$11.67 to \$15.63 per square foot of living area. The subject's improvement assessment of \$34,740 or \$14.07 per square foot of living area falls above the range established by the comparables in this record on an overall improvement assessment basis and within the range on a per square foot basis. The subject's larger improvement assessment is logical considering it's a substantially newer and larger dwelling than the comparables in this record. Based on the equity evidence in this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
