

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bassam Efein
DOCKET NO.: 23-53018.001-R-1
PARCEL NO.: 24-17-201-049-0000

The parties of record before the Property Tax Appeal Board are Bassam Efein, the appellant, by Robert Rosenfeld, attorney-at-law of Robert H. Rosenfeld & Associates, LLC in Northbrook, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,757
IMPR.: \$45,725
TOTAL: \$51,482

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story multi-family building of frame and masonry exterior construction containing 4,384 square feet of building area. The building was constructed in 1973 and is approximately 50 years old. Features of the building include a full basement and four bathrooms. The property has a 6,224 square foot site located in Oak Lawn, Worth Township, Cook County. The subject is a class 2-11 apartment building under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables composed of class 2-11 apartment buildings of masonry or frame and masonry exterior construction that have either 4,333 or 4,384 square feet of building area. The buildings are from 42 to 51 years old. Each comparable has a partial or full basement. The comparables

have three full bathrooms and two comparables have an additional one or three half bathrooms. The comparables have the same assessment neighborhood code as the subject property and are located from 92 feet to .4 of a mile from the subject property. Comparable #2 is located along the same street as the subject property. These properties have improvement assessments ranging from \$41,078 to \$42,571 or from \$9.48 to \$9.71 per square foot of building area. The appellant requested the subject's improvement assessment be reduced to \$41,955.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$51,482. The subject property has an improvement assessment of \$45,725 or \$10.43 per square foot of building area. In support of the contention of the correct assessment the board of review submitted information on four equity comparables consisting of class 2-11 properties improved with two-story buildings of frame and masonry exterior construction each with 4,384 square feet of building area. The buildings are 49 or 51 years old. Each property has a full unfinished basement and four bathrooms. The comparables have the same assessment neighborhood code as the subject property and are located in the same block as the subject property. Comparables #2, #3 and #4 are located along the same street as the subject property. The comparables have improvement assessments ranging from \$46,196 to \$47,384 or from \$10.54 to \$10.81 per square feet of building area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on seven comparables with the same classification code and neighborhood code as the subject property to support their respective positions. The comparables are all relatively similar to the subject; however, the Board finds the board of review comparables are to be given the most weight as these properties are improved with buildings that are identical to the subject in size and features as well as being similar to the subject in age. The board of review comparables have improvement assessments that range from \$46,196 to \$47,384 or from \$10.54 to \$10.81 per square foot of building area. The subject's improvement assessment of \$45,725 or \$10.43 per square foot of building area falls below the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
