

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Georges Yacoub A.
DOCKET NO.: 23-53061.001-R-1
PARCEL NO.: 10-15-301-052-0000

The parties of record before the Property Tax Appeal Board are Georges Yacoub A., the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C., in Park Ridge, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,405
IMPR.: \$46,627
TOTAL: \$55,032

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story multi-family apartment building of masonry exterior construction with 4,016 square feet of gross building area which is approximately 71 years old. Features include a full unfinished basement, one fireplace,¹ and four full bathrooms. The property has a 6,466 square foot site and is located in Skokie, Niles Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of the inequity argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject and within .04 of a mile from

¹ The appellant supplied a property characteristics sheet for the subject depicting a fireplace, although the assessing officials do not report this feature.

the subject. The comparables consist of class 2-11 two-story multi-family buildings of masonry exterior construction that are either 67 or 71 years old. The buildings contain either 4,016 or 5,865 square feet of gross building area. Each comparable has a full basement, 4 or 4½ bathrooms, and a fireplace. Two comparables each have central air conditioning. One comparable has a 1.5-car garage. The comparables have improvement assessments ranging from \$40,482 to \$60,000 or from \$10.08 to \$10.98 per square foot of gross building area. Based on this evidence, the appellant requested an improvement assessment of \$41,887 or \$10.43 per square foot of gross building area.

The board of review submitted its “Board of Review Notes on Appeal” disclosing the total assessment for the subject of \$55,032. The subject property has an improvement assessment of \$46,627 or \$11.61 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information four equity comparables located in the same neighborhood code as the subject and the same block or same [tax] block as the subject. The comparables consist of class 2-11 two-story apartment buildings of masonry exterior construction which are each 71 years old. The buildings contain 4,016 square feet of gross building area. Each comparable has a full basement, four bathrooms, and comparable #4 has central air conditioning. The comparables have improvement assessments ranging from \$52,594 to \$55,594 or from \$13.10 to \$13.84 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject’s assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant’s comparable #2 as well as board of review comparable #4, due to a substantially larger gross building area and central air conditioning amenity, respectively, when compared to the subject building.

The Board finds the best evidence of assessment equity consists of appellant’s comparables #1 and #3 along with board of review comparables #1, #2 and #3, which are identical to the subject in classification, age, building size and bathroom count. These five comparables have improvement assessments ranging from \$40,482 to \$55,594 or from \$10.08 to \$13.84 per square foot of gross building area. The subject has an improvement assessment of \$46,627 or \$11.61 per square foot of gross building area which is within the range of the best comparables in the

record both in terms of overall improvement assessment and on a per-square-foot of building area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
