

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Helen Chatzis  
DOCKET NO.: 23-53155.001-R-1  
PARCEL NO.: 10-27-220-036-0000

The parties of record before the Property Tax Appeal Board are Helen Chatzis, the appellant, by attorney George N. Reveliotis of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$7,472  
**IMPR.:** \$27,354  
**TOTAL:** \$34,826

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a one-story dwelling of masonry exterior construction with 1,556 square feet of living area. The dwelling is approximately 68 years old. Features of the home include a full basement with finished area, central air conditioning and a 1.5-car garage. The property has a 5,535 square foot site and is located in Skokie, Niles Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on four comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within approximately .3 of a mile from the subject property. The comparables have sites that range in size from 3,690 to 5,007 square feet of land area. The comparables are improved with

one-story dwellings of masonry exterior construction ranging in size from 1,025 to 1,508 square feet of living area. The dwellings are from 64 to 69 years old. The comparables each have a full or partial basement, two of which have finished area. Two comparables have central air conditioning, each comparable has a fireplace and two comparables each have a 1-car or a 2-car garage. The properties sold from July 2021 to August 2023 for prices ranging from \$110,000 to \$300,000 or from \$74.83 to \$202.70 per square foot of living area, land included. Based on this evidence, the appellant requested the subject's assessment be reduced to \$22,823, reflecting a market value of \$228,230 or \$146.68 per square foot of living area, land included, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

The board of review submitted its "Board of Review Notes on Appeal." The appellant provided a copy of the Cook County Board of Review decision for the 2022 tax year disclosing the final total assessment for the subject of \$34,826. The subject's assessment reflects a market value of \$348,260 or \$223.82 per square foot of living area, including land, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

In support of its contention of the correct assessment the board of review submitted information on four comparable properties that have the same assessment neighborhood code and property classification code as the subject. The comparables are located approximately ¼ of a mile from the subject property and have sites that range in size from 5,187 to 7,075 square feet of land area. The comparables are improved with one-story dwellings of masonry exterior construction ranging in size from 1,315 to 1,622 square feet of living area. The dwellings are from 55 to 70 years old. The comparables each have a full or partial basement, three of which have finished area. Three comparables have central air conditioning, two comparables each have a fireplace and each comparable has a 1-car or a 2-car garage. The properties sold from April 2021 to August 2023 for prices ranging from \$370,000 to \$542,000 or from \$228.11 to \$412.17 per square foot of living area, land included. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparable #3, as well as board of review comparables #1 and #2 which have sale dates that occurred in 2021, less proximate to the January 1, 2022 assessment date than other sales in the record. Additionally, the appellant's comparable #3 is substantially smaller in dwelling size, when compared to the subject and board of review comparable #2 lacks central air conditioning, unlike the subject. The Board has also given less weight to the

appellant's comparables #1, #2 and #4 due to their lack of central air conditioning and/or a garage, both features of the subject.

The Board finds the best evidence of market value to be board of review comparables #3 and #4, which sold more proximate in time to the lien date at issue and are similar to the subject in location, site size, dwelling size, design, age and many features. These two comparables sold in August and December 2023 for prices of \$420,000 and \$542,000 or for \$298.51 and \$412.17 per square foot of living area, including land, respectively. The subject's assessment reflects a market value of \$348,260 or \$223.82 per square foot of living area, including land, which falls below the two best comparables in the record both in terms of overall market value and on a price per square foot of living area basis. Therefore, based on this record the Board finds a reduction in the subject's assessment is not warranted based on overvaluation.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
