

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Scott Beckman
DOCKET NO.: 23-53292.001-R-1
PARCEL NO.: 18-31-408-005-0000

The parties of record before the Property Tax Appeal Board are Scott Beckman, the appellant, by Jeremy Rosenfeld, attorney-at-law of Robert H. Rosenfeld & Associates, LLC in Northbrook, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,209
IMPR.: \$59,790
TOTAL: \$72,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 16,512 square foot site improved with a two-story dwelling of frame and masonry exterior construction with 4,648 square feet of living area. The dwelling was built in 1992 and is approximately 31 years old. Features of the property include a partial basement, central air conditioning, one fireplace, 3½ bathrooms, and a 4-car garage. The property is in Willow Springs, Lyons Township, Cook County. The subject is a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables consisting of class 2-08 properties improved with two or more story dwellings of frame, masonry or frame and masonry exterior construction that range in size from 4,319 to 4,972 square feet of living area. The homes are from 30 to 43 years old. Three comparables

have full basements and one comparable has a slab foundation. Each property has central air conditioning, one or two fireplaces, 2½ or 4½ bathrooms, and a 3-car or 3½-car garage. These properties have different neighborhood codes than the subject and are located from 1.2 to 1.8 miles from the subject property. Their improvement assessments range from \$47,392 to \$52,654 or from \$9.53 to \$11.38 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$50,291.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$72,999. The subject property has an improvement assessment of \$59,790 or \$12.86 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables composed of class 2-78 properties improved with two-story dwellings of frame and masonry exterior construction that range in size from 3,259 to 3,743 square feet of living area and are 29 or 33 years old. Each property has a full or partial basement with two having finished area, central air conditioning, one fireplace, and a 3-car garage. The comparables have 2½, 3 or 3½ bathrooms. The comparables have the same neighborhood code as the subject property and are located in the same block as the subject property. Their improvement assessments range from \$45,365 to \$58,109 or from \$13.92 to \$17.26 per square foot of living area. The board of review asserted the building assessed value per square foot for the comparables are the same or higher than the subject which supports the assessed value as equitable.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on eight equity comparables to support their respective positions. The appellant's comparables are most similar to the subject in dwelling size but are the least similar to the subject in location having differing neighborhood codes than the subject and are from 1.2 to 1.8 miles from the subject property. The board of review comparables are the least similar to the subject in dwelling size, being approximately from 19% to 30% smaller than the subject but are most similar to the subject in location having the same neighborhood code and being in the same assessment block as the subject property. Based on location, the Board finds the best evidence of assessment equity to be the board of review comparables. These properties have similar features as the subject property but would require an upward adjustment to make the comparables more equivalent to the subject in size. The board of review comparables have improvement assessments that range from \$45,365 to \$58,109 or from \$13.92 to \$17.26 per square foot of living area. The subject's improvement assessment of \$59,790 or \$12.86 per square foot of living area falls above the range of the total improvement assessments but is below the range on a per square foot of living area basis as established by the best comparables in this record. The subject's higher total improvement assessment relative to the

board of review comparables is appropriate given the differences in dwelling size. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
