

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Basilis & Mary Giannetos
DOCKET NO.: 23-53601.001-R-1
PARCEL NO.: 04-20-409-019-0000

The parties of record before the Property Tax Appeal Board are Basilis & Mary Giannetos, the appellants, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,278
IMPR.: \$36,211
TOTAL: \$48,489

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 2,534 square feet of living area. The dwelling is approximately 50 years old. Features of the home include a crawl space foundation, central air conditioning and a 2-car garage. The property has an 8,770 square foot site and is located in Northbrook, Northfield Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellants submitted information on six comparables that have the same neighborhood code as the subject. The comparables are improved with class 2-78 properties improved with 2-story dwellings of frame and masonry exterior construction ranging in size from 2,138 to 2,922 square feet of living area. The dwellings are 54 to 59 years old and

have partial or full basements, three of which have finished area. The comparables each have central air conditioning, one or two fireplaces and a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$24,359 to \$39,337 or from \$11.39 to \$13.46 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$48,489. The subject property has an improvement assessment of \$36,211 or \$14.29 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same neighborhood code as the subject. The comparables are class 2-78 properties improved with 2-story dwellings of frame and masonry exterior construction ranging in size from 2,374 to 2,629 square feet of living area. The dwellings are 50 to 54 years old and have partial or full basements, two with finished area. The comparables each have central air conditioning and a 2-car garage. Two comparables each have one fireplace. The comparables have improvement assessments ranging from \$35,040 to \$42,456 or from \$14.76 to \$16.29 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellants contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains ten equity comparables for the Board's consideration with the same neighborhood and property classification codes as the subject and all have basement foundations which is a feature the subject lacks. The Board gives less weight to appellants' comparables #1 and #6 due to differences from the subject in dwelling size. The Board finds the remaining comparables are more similar in dwelling size and have varying degrees of similarity in age and features. The Board recognizes downward adjustments to the comparables are necessary for their superior basements when compared to the subject's crawl space foundation. These comparables have improvement assessments ranging from \$30,000 to \$42,456 or from \$11.80 to \$16.29 per square foot of living area. The subject has an improvement assessment of \$36,211 or \$14.29 per square foot of living area, which falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellants did not prove by clear and convincing evidence that the subject's improvement assessment was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
