

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gary Briggs
DOCKET NO.: 23-53638.001-R-1
PARCEL NO.: 04-36-100-025-0000

The parties of record before the Property Tax Appeal Board are Gary Briggs, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$26,114
IMPR.: \$44,886
TOTAL: \$71,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 2,304 square feet of living area. The home is approximately 59 years old. Features include a full basement, central air conditioning, one fireplace, and a 2-car garage. The property has a 13,057 square foot site and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information, including property characteristics and appeal history printouts, on three equity comparables that are located from 0.9 of a mile to 1.3 miles from the subject. However, none of the comparables are located within the subject's assessment neighborhood code. The comparables are improved with 1-story, class 2-04

dwelling of masonry exterior construction ranging in size from 2,264 to 2,501 square feet of living area. The homes range in age from 57 to 68 years old. Each comparable has a full basement, central air conditioning, one or two fireplaces, and a 2-car garage. The comparables have improvement assessments ranging from \$40,320 to \$44,880 or from \$16.89 to \$17.94 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$71,000. The subject property has an improvement assessment of \$44,886 or \$19.48 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the subject's assessment neighborhood code and within the same tax block as the subject property. The comparables are improved with 1-story, class 2-04 dwellings of masonry exterior construction ranging in size from 2,000 to 2,289 square feet of living area. The homes range in age from 57 to 60 years old. Each comparable has a partial basement, central air conditioning, one or two fireplaces, and a 2-car garage. The comparables have improvement assessments ranging from \$45,700 to \$51,440 or from \$20.44 to \$25.17 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested equity comparables for the Board's consideration with each comparable having the same property classification as the subject property. The Board gives less weight to the appellant's comparables which are located less proximate to the subject than other comparables in this record.

The Board finds the best evidence of assessment equity to be the board of review comparables which are somewhat similar to the subject in design, age, dwelling size, and most features. These comparables have improvement assessments ranging from \$45,700 to \$51,440 or from \$20.44 to \$25.17 per square foot of living area. The subject's improvement assessment of \$44,886 or \$19.48 per square foot of living area falls below the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
