

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marc Muskat  
DOCKET NO.: 23-53731.001-R-1  
PARCEL NO.: 04-09-302-031-0000

The parties of record before the Property Tax Appeal Board are Marc Muskat, the appellant, by attorney Kyle Gordon Kamego, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$53,762  
**IMPR.:** \$72,237  
**TOTAL:** \$125,999

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of masonry exterior construction with 4,385 square feet of living area. The home is approximately 23 years old. Features include a partial basement, central air conditioning, one fireplace, and a 3-car garage. The property has a 35,841 square foot site and is located in Northbrook, Northfield Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood code. The comparables are improved with 2-story, class 2-08 dwellings of masonry exterior construction ranging in size from 4,273 to 4,577 square feet of living area. The homes range in age from 23 to 34 years old.

Each comparable has a full or partial basement, central air conditioning, one or two fireplaces, and a 3-car or a 4-car garage. The comparables have improvement assessments ranging from \$49,000 to \$63,950 or from \$10.71 to \$14.82 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$125,999. The subject property has an improvement assessment of \$72,238 or \$16.47 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood code. The comparables are improved with 2-story, class 2-08 dwellings of masonry exterior construction ranging in size from 4,109 to 4,776 square feet of living area. The homes are either 21 or 22 years old. Each comparable has a full or partial basement, central air conditioning, one or two fireplaces, and from a 2.5-car to a 4-car garage. The comparables have improvement assessments ranging from \$70,757 to \$82,000 or from \$17.00 to \$18.93 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board finds each of the parties' comparables has the same assessment neighborhood code, design, and classification as the subject property. However, the appellant's comparables #2 and #4 are older homes than the subject and were given less weight by the Board. The remaining comparables are similar to the subject in age and dwelling size with varying degrees of similarity in other features. The equity comparables in this record have improvement assessments ranging from \$54,865 to \$82,000 or from \$12.84 to \$18.93 per square foot of living area. The subject's improvement assessment of \$72,238 or \$16.47 per square foot of living area falls within the range established by the comparables in this record. After considering the necessary adjustments to the parties' comparables for differences from the subject, the Board finds the appellant did not demonstrate that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
