

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Andreas Papantoniou
DOCKET NO.: 23-53832.001-R-1
PARCEL NO.: 04-20-302-019-0000

The parties of record before the Property Tax Appeal Board are Andreas Papantoniou, the appellant(s), by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,258
IMPR.: \$55,711
TOTAL: \$76,969

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of an approximately 42-year-old, two-story, single-family dwelling of masonry¹ construction with 3,181 square feet of living area. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a two-car garage. The property has a 13,286 square foot site located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance. Appellant disclosed that the subject is not owner-occupied.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on eight equity comparable properties with

¹ BOR lists the subject as a class 2-78 single-family dwelling of frame and masonry construction. The board takes official notice that in 2018, 2019 and 2020 appeals for this subject the appellant disclosed that the subject was of masonry construction. The Board find that the subject is a single-family dwelling of masonry construction.

varying degrees of similarities to the subject that are located within a 0.01 and a 0.19-mile radius from the subject. These comparable properties had improvement assessments that ranged from \$12.44 to \$14.17 per square foot of living area. All the submitted comparable properties had the same neighborhood code as the subject. Based on this evidence, the appellant is requesting an assessment amount of \$71,099.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$76,970. The subject property has an improvement assessment of \$55,712 or \$14.77 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparable properties that are located either within a block or within a ¼-mile radius from the subject. Based on this evidence the board of review sought confirmation of the subject's total assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant *did not meet* this burden of proof and a reduction in the subject's assessment is *not* warranted.

The Board finds the best evidence of assessment equity to be appellant's comparable properties #1, #3 and #4 and the board of review's comparable properties #2 through #4. These comparable properties ranged in improvement assessment of \$13.31 to \$15.29 per square foot of living area. The subject's improvement assessment of \$14.77 per square foot of living area falls within the range established by the best comparable properties in this record. These comparable properties were given more weight based on their size, amenities and/or location. After considering all the comparable properties submitted by the parties with emphasis on those properties that are more proximate in location, more similar in size, and with similar features relative to the subject and after further considering adjustments to the best comparable properties for differences from the subject, the Board finds the subject's improvement assessment is supported. The Board finds that the appellant failed to demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and, therefore, a reduction in the subject's assessment commensurate with the appellant's request is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
