

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Palarczyk  
DOCKET NO.: 23-54045.001-R-1  
PARCEL NO.: 24-15-108-042-0000

The parties of record before the Property Tax Appeal Board are James Palarczyk, the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$5,850  
**IMPR.:** \$51,055  
**TOTAL:** \$56,905

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 3-story, multi-family building of masonry exterior construction with 5,916 square feet of gross building area. The building is approximately 51 years old. Features include a slab foundation and a 2-car garage. The property has a 7,800 square foot site and is located in Oak Lawn, Worth Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted four equity comparables located within the subject's assessment neighborhood. The comparables are reported to be improved with 3-story or higher, class 2-11 multi-family buildings of masonry exterior construction ranging in size from 5,916 to 6,720 square feet of gross building area. The buildings range in

age from 52 to 56 years old. Each comparable has a slab or crawl space foundation. One comparable has a 2-car garage. The comparables have improvement assessments ranging from \$48,404 to \$56,150 or from \$8.18 or \$8.49 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$56,905. The subject property has an improvement assessment of \$51,055 or \$8.63 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the subject's assessment neighborhood. The comparables are improved with 3-story, class 2-11 multi-family buildings of masonry exterior construction with either 5,672 or 6,240 square feet of gross building area. The buildings range in age from 51 to 53 years old. Each comparable has a slab foundation. One comparable has a 1.5-car garage. The comparables have improvement assessments ranging from \$50,140 to \$55,150 or from \$8.84 to \$9.55 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #3 which is less similar to the subject in dwelling size than other comparables in this record.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which are similar to the subject in location, design/class, age, dwelling size, and many features. However, five of these comparables lack a garage, which is a feature of the subject, suggesting upward adjustments for this difference would be required to make them more equivalent to the subject. The comparables have improvement assessments ranging from \$48,404 to \$55,150 or from \$8.18 to \$9.55 per square foot of gross building area. The subject's improvement assessment of \$51,055 or \$8.63 per square foot of gross building area falls within the range established by the comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
