

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kevin Grodnick
DOCKET NO.: 23-54742.001-R-1
PARCEL NO.: 04-07-308-004-0000

The parties of record before the Property Tax Appeal Board are Kevin Grodnick, the appellant(s), by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$18,053
IMPR.: \$47,585
TOTAL: \$65,638

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of an approximately 35-year-old, two-story, single-family dwelling of frame and masonry construction with 3,100 square feet of living area. The property has a 12,035 square foot site and is located in Northbrook, Northfield Township, Cook County. Features of the home include a full basement, one fireplace, central air conditioning, and a two-and-a-half-car garage. The subject is classified as a Class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with regard to the subject improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables with varying degrees of similarity to the subject. The suggested comparable properties ranged in size from 2,633 to 3,694 square feet of living area. The appellant reported that each comparable had the same neighborhood code as the subject property and that the

suggested comparables were located between 0.00 and 0.99 miles from the subject property. Each suggested comparable property has one fireplace, central air conditioning, and either a full or partial basement. Each comparable had a two or three-car garage. The comparables ranged in age from 38 to 47 years old. The comparables have improvement assessments ranging from \$8.98 to \$11.74 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment to \$51,657.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$65,638. The subject property has an improvement assessment of \$47,586 or \$15.35 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables. The suggested comparable properties ranged in size from 2,829 to 3,400 square feet of living area. The board of review reported that each comparable had the same neighborhood code as the subject property and were each located within the subarea of the subject, with two of the comparables being within a quarter of a mile from the subject property and one comparable being on the same block as the subject property. Each of the suggested comparable properties had one fireplace, central air conditioning, and a full or partial basement. Two comparable properties had a two-car garage, one had a two-and-a-half-car garage, and one had a three-car garage. The comparables ranged in age from 30 to 39 years old. The comparables have improvement assessments ranging from \$15.50 to \$18.40 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer asserts assessment inequity as the basis of the appeal. The Illinois Constitution requires that real estate taxes, "be levied uniformly by valuation ascertained as the General Assembly shall provide by law." Ill. Const. art. IX, §4 (1970); Walsh v. Property Tax Appeal Board, 181 Ill. 2d 228, 234 (1998). This uniformity provision of the Illinois Constitution does not require absolute equality in taxation, however, and it is sufficient if the taxing authority achieves a reasonable degree of uniformity. Peacock v. Property Tax Appeal Board, 339 Ill. App. 3d 1060, 1070 (4th Dist. 2003).

When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by the appellant by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e); Walsh, 181 Ill. 2d at 234 (1998). Clear and convincing evidence means more than a preponderance of the evidence, but it does not need to approach the degree of proof needed for a conviction of a crime. Bazyldo v. Volant, 164 Ill. 2d 207, 213 (1995). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant failed to meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be appellant's comparables #2 and #4 and the board of review's comparables #1, #2, and #3. Like the subject property, these comparables are class 2-78, single-family dwellings of frame and masonry construction. These

comparable properties had similarly sized living areas, similar age, full or partial basements, central air conditioning, one fireplace, and similar features and were located within a closer degree of proximity to the subject property. In comparison, the comparable properties suggested by the appellant that were afforded less weight were more than a half of a mile from the subject property.

The best evidence comparables ranged in improvement assessment of \$10.06 to \$18.40 per square foot of living area. The subject's improvement assessment of \$15.35 per square foot of living area falls within the range established by the best comparables in this record. After considering these comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
