

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mary I. Doran
DOCKET NO.: 23-55084.001-R-1
PARCEL NO.: 25-06-308-004-0000

The parties of record before the Property Tax Appeal Board are Mary I. Doran, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,687
IMPR.: \$31,412
TOTAL: \$43,099

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry construction with 2,726 square feet of living area. The dwelling is approximately 80 years old. Features of the home include a full basement with finished area,¹ central air conditioning, 3 fireplaces and a 2-car garage. The property has a 9,350 square foot site and is located in Chicago, Lake Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted information on four comparable properties located within the same assessment neighborhood as the subject. The comparables are improved with 2-story dwellings of masonry construction ranging in size from

2,263 to 2,328 square feet of living area. The dwellings are 74 to 83 years old. Each comparable has a full basement, one comparable has 2 fireplaces, and three comparables have either a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$20,575 to \$22,481 or from \$8.84 to \$9.93 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject has a total assessment of \$43,099. The subject property has an improvement assessment of \$31,412 or \$11.52 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four comparable properties located within the same assessment neighborhood as the subject and within approximately $\frac{1}{4}$ of a mile from the subject. The comparables are improved with 2-story dwellings of masonry construction ranging in size from 2,763 to 2,984 square feet of living area. The dwellings are 79 to 82 years old. Each comparable has a full basement with three having finished area, central air conditioning, 1 or 2 fireplaces and a 2-car garage. The comparables have improvement assessments ranging from \$34,178 to \$45,605 or from \$12.37 to \$16.00 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of eight comparables for the Board's consideration. The Board gives less weight to the appellant's comparables due to differences from the subject in their considerably smaller dwelling sizes and a lack of central air conditioning and/or a garage, which are features of the subject.

The Board finds the best evidence of assessment equity to be the board of review's comparables which are overall most similar to the subject in design, age, dwelling size, and most features. These four comparables have improvement assessments ranging from \$34,178 to \$45,605 or from \$12.37 to \$16.00 per square foot of living area. The subject's improvement assessment of \$31,412 or \$11.52 per square foot of living area falls below the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
