

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ronald Kaminsky
DOCKET NO.: 23-55156.001-R-1
PARCEL NO.: 24-15-215-017-0000

The parties of record before the Property Tax Appeal Board are Ronald Kaminsky, the appellant, by Brian S. Maher, attorney-at-law of Weis, DuBrock, Doody & Maher in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,620
IMPR.: \$21,232
TOTAL: \$25,852

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a one-story dwelling of masonry exterior construction that contains 1,228 square feet of living area. The dwelling is approximately 67 years old. Features of the property include a partial basement with a formal recreation room, central air conditioning, 1½ bathrooms and a 2½-car garage. The property has a 6,600 square foot site located in Oak Lawn, Worth Township, Cook County. The subject is class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables with the same classification code and neighborhood code as the subject property. The properties are located within .4 of a mile from the subject property. The comparables are improved with one-story dwellings of masonry exterior construction that range in size from 1,448 to 1,664 square feet of

living area. The dwellings are 59 to 72 years old. Two comparables have slab foundations. Two comparables have crawl space foundations. Each property has central air conditioning and a 1½-car or 2-car garage. The comparables have 1, 1 ½ or 2 bathrooms. One comparable has a fireplace. Their improvement assessments range from \$18,123 to \$23,099 or from \$11.89 to \$14.01 per square foot of living area. The appellant requested the improvement assessment for the subject property be reduced to \$15,964.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$25,852. The subject property has an improvement assessment of \$21,232 or \$17.29 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables consisting of class 2-03 properties improved with one-story dwellings of masonry exterior construction that range in size from 1,197 to 1,227 square feet of living area. The homes are 59 to 67 years old. Each property has a full or partial basement with three basements having finished area. Each comparable has central air conditioning, 1 or 1½ bathrooms and a 2-car garage. These properties have the same neighborhood code as the subject property and are located ¼ of a mile from the subject. The comparables have improvement assessments ranging from \$22,251 to \$22,380 or from \$18.24 to \$18.68 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the board of review comparables that are more like the subject property in dwelling size and foundation than are the comparables provided by the appellant. The board of review comparables are also relatively similar to the subject in features. The board of review comparables have improvement assessments that range from \$22,251 to \$22,380 or from \$18.24 to \$18.68 per square foot of living area. The subject has an improvement assessment of \$21,232 or \$17.29 per square foot of living area which falls below the range established by the best comparables in this record. Less weight is given the appellant's comparables due to differences from the subject in dwelling size being from approximately 18% to 36% larger than the subject property, and differences in foundation as each property has either a crawl space or a slab foundation while the subject has a partial basement. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
