

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ken Mueller
DOCKET NO.: 23-55770.001-R-1
PARCEL NO.: 25-18-121-023-0000

The parties of record before the Property Tax Appeal Board are Ken Mueller, the appellant, by attorney Brian S. Maher of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$20,866
IMPR.: \$37,431
TOTAL: \$58,297

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of stucco exterior construction with 3,252 square feet of living area. The dwelling is approximately 111 years old. The property features a full basement, three full bathrooms, one half bathroom, one fireplace and a two-car garage. The property has a 16,693 square foot site and is located in Chicago, Lake Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables that have the same assessment neighborhood code as the subject. The comparables are class 2-06 properties improved with two-story dwellings of frame or masonry exterior construction ranging in size from 2,507 to 3,325 square feet of living area. The dwellings range

in age from 96 to 123 years old. One comparable has a concrete slab foundation and three comparables each have a full or partial basement. The comparables each have from one to three full bathrooms and a one-car or a two-car garage. Two comparables each have an additional half bathroom and two comparables each have one or two fireplaces. The comparables have improvement assessments that range from \$22,901 to \$30,355 or from \$9.04 to \$9.21 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$29,691 or \$9.13 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$58,297. The subject property has an improvement assessment of \$37,431 or \$11.51 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located within the same block as the subject property or approximately ¼ of a mile from the subject, two of which are also along the same street. The comparables are class 2-06 properties improved with two-story dwellings of stucco, masonry or frame and masonry exterior construction ranging in size from 3,116 to 3,266 square feet of living area. The dwellings range in age from 96 to 109 years old. One comparable has a concrete slab foundation and three comparables each have a full or partial basement with finished area. Each comparable has three or four full bathrooms and from a one-car to a two-car garage. Three comparables have one or three half bathrooms and a fireplace. Two comparables have central air conditioning. The comparables have improvement assessments ranging from \$38,250 to \$46,500 or from \$11.91 to \$14.92 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #1 and #3 due to their smaller dwelling sizes and/or lack of a basement. The Board has given reduced weight to board of review comparable #1 due to its lack of a basement, a feature of the subject and to board of review comparables #3 and #4 which have central air conditioning, unlike the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #2 and #4, along with board of review comparable #2, which are similar to the subject in location, dwelling size, design and age. However, the Board finds these comparables have other features with varying degrees of similarity when compared to the subject, suggesting adjustments would

be required to make the comparables more equivalent to the subject. Nevertheless, the comparables have improvement assessments ranging from \$27,625 to \$43,402 or from \$9.13 to \$13.31 per square foot of living area. The subject's improvement assessment of \$37,431 or \$11.51 per square foot of living area falls within the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
