

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph Clark Jr.  
DOCKET NO.: 23-56035.001-R-1  
PARCEL NO.: 28-21-209-028-0000

The parties of record before the Property Tax Appeal Board are Joseph Clark Jr., the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$4,020  
**IMPR.:** \$23,980  
**TOTAL:** \$28,000

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of an approximately 43-year-old, multi-level residential dwelling of frame and masonry construction with 1,878 square feet of living area. A feature of the home is an attached garage. The property is located in Oak Forest, Bremen Township, Cook County. The subject is classified as a class 2-07 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on four suggested equity comparable properties with varying degrees of similarities to the subject. These comparables are described as frame and brick construction, two-story dwellings. These properties have partial basements or a crawlspace. They range in age from zero to 62 years; in size from 1,494 to 1,890 square feet of living area; and an improvement assessment of \$13.23 to \$17.40 per square foot of living area. The properties are located with a 1.6-miles radius of the subject property. The appellant also

submitted the subject's board of review decision letter dated November 19, 2024 which disclosed a total assessed value of \$28,000. The appellant requested the subject's total assessment be reduced to \$16,609.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$28,000. The subject property has an improvement assessment of \$23,980 or \$12.77 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparable properties with varying degrees of similarities to the subject. These comparables are described as frame or frame and masonry construction, two-story dwellings. They range in age from 22 to 42 years; in size from 1,494 to 1,888 square feet of living area; and an improvement assessment ranging from \$12.88 to \$16.49 per square foot of living area. These properties have a crawl space, partial or full basements and two-car garages. The properties are located within a ¼-mile radius of the subject property, and two are on the same block. The board of review requested that the assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. The Illinois Constitution requires that real estate taxes "be levied uniformly by valuation ascertained as the General Assembly shall provide by law." Ill. Const., art. IX, § 4 (1970); Walsh v. Property Tax Appeal Board, 181 Ill. 2d 228, 234 (1998). This uniformity provision of the Illinois Constitution does not require absolute equality in taxation, however, and it is sufficient if the taxing authority achieves a reasonable degree of uniformity. Peacock v. Property Tax Appeal Board, 339 Ill. App. 3d 1060, 1070 (4<sup>th</sup> Dist. 2003).

When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Clear and convincing evidence means more than a preponderance of the evidence, but it does not need to approach the degree of proof needed for a conviction of a crime. Bazyldo v. Volant, 164 Ill. 2d 207, 213 (1995). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds that the subject's total assessed value is \$28,000 per the board of review decision letter. Therefore, the subject has a total improvement assessment of \$23,980 or \$12.77 per square foot of living area.

The Board finds the best evidence of assessment equity is the board of review's suggested comparable #3 and the appellant's comparables #2 and #3. The dwellings on these comparable are similar to the subject dwelling in age, construction, location, amenities and living area size. As for the comparables not considered the best evidence, the Board finds that the board of review's comparables #1 and #2 are not similarly constructed like the subject. Additionally, the

board of review's comparables #1 and #4 and the appellant's suggested comparables #1 and #4 are considerably smaller in living area square footage than the subject property.

The comparables had improvement assessments that ranged from \$12.88 to \$14.05 per square foot of living area. The subject's improvement assessment of \$12.77 per square foot of living area falls below the assessment per square feet of the best comparable in this record. After considering all the best comparable properties submitted by the parties with emphasis on those properties that are proximate in location, similar in size of living area, and with similar features to the subject and after further considering adjustments to the best comparable properties for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
