

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mary Beth Jackson
DOCKET NO.: 24-00971.001-R-1
PARCEL NO.: 16-28-307-005

The parties of record before the Property Tax Appeal Board are Mary Beth Jackson, the appellant, by attorney Arden Edelcup, of Tax Appeals Lake County in Lake Zurich; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$43,511
IMPR.: \$112,391
TOTAL: \$155,902

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a split-level dwelling of brick exterior construction with 1,656 square feet of living area. The dwelling was constructed in 1960 and is approximately 64 years old. Features of the home include a lower level, central air conditioning, one fireplace and a garage with 506 square feet of building area.¹ The property has a site with approximately 8,500 square feet of land area and is located in Deerfield, West Deerfield Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five suggested equity comparables. The comparables are located in the same assessment neighborhood code as the subject and within .22 of a mile from the subject property. The comparables are improved with split-level dwellings of brick exterior construction ranging in size from 1,656 to 1,704 square feet of living area. The comparables were built from 1959 to 1961. Each comparable has a basement/lower level, central

air conditioning and a garage ranging in size from 504 to 552 square feet of building area. The comparables have improvement assessments that range from \$102,137 to \$106,528 or from \$61.68 to \$63.22 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$106,250 or \$64.16 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$155,902. The subject property has an improvement assessment of \$112,391 or \$67.87 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on three suggested equity comparables. The comparables are located in the same assessment neighborhood code as the subject and within .20 of a mile from the subject property. The comparables are improved with 1-story dwellings of brick exterior construction ranging in size from 1,365 to 1,707 square feet of living area. The dwellings are 65 or 66 years old. Each comparable has central air conditioning, one fireplace and a garage ranging in size from 264 to 529 square feet of building area. The comparables have improvement assessments ranging from \$93,285 to \$115,642 or from \$66.05 to \$68.34 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board has given less weight to board of review comparable #2 due to its smaller dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables along with board of review comparables #1 and #3. The Board finds that these comparables are most similar to the subject in location, design, dwelling size, age and some features. These most similar comparables have improvement assessments ranging from \$102,137 to \$115,642 or from \$61.68 to \$67.75 per square foot of living area. The subject's improvement assessment of \$112,391 or \$67.87 per square foot of living area falls within the range of the best comparables in this record on an overall improvement assessment basis but is slightly above on a square foot basis. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
