

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Francisco Felix
DOCKET NO.: 24-01299.001-R-1
PARCEL NO.: 02-22-201-078

The parties of record before the Property Tax Appeal Board are Francisco Felix, the appellant, by attorney Ronald Kingsley, of Lake County Real Estate Tax Appeal, LLC in Hawthorn Woods; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,789
IMPR.: \$123,405
TOTAL: \$138,194

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of wood siding exterior construction with 2,700 square feet of living area. The dwelling was constructed in 2018 and is 6 years old. Features of the home include a basement, central air conditioning, and a 420 square foot garage. The property has a 10,093 square foot site and is located in Antioch, Antioch Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on five comparable sales located from .15 of a mile to 1.54 miles from the subject, one of which is in the subject's assessment neighborhood. The comparables consist of two-story dwellings of wood frame exterior construction ranging in size from 2,534 to 3,135 square feet of living area. The homes are either 6 or 19 years old. Each dwelling has central air conditioning, a basement, and a garage ranging in size from 420 to 670

square feet of building area. Three comparables each have a fireplace. The parcels range in size from 7,797 to 11,996 square feet of land area. The comparables sold from May to August 2024 for prices ranging from \$380,000 to \$434,500 or from \$138.60 to \$157.85 per square foot of living area, including land. Based on this evidence, the appellant requested a reduced assessment of \$121,488, for an estimated market value of \$364,500 or \$135.00 per square foot of living area, including land, when applying the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$138,194. The subject's assessment reflects a market value of \$414,623 or \$153.56 per square foot of living area, land included, when applying the statutory level of assessment of 33.33%.¹

In support of its contention of the correct assessment the board of review submitted information on four comparable sales located within the subject's assessment neighborhood and within .97 of a mile of the subject. The comparables consist of two-story dwellings of wood or vinyl siding exterior construction ranging in size from 2,108 to 3,000 square feet of living area. The dwellings range in age from 3 to 7 years old. Each dwelling has central air conditioning, a basement, and a garage ranging in size from 380 to 680 square feet of building area. Three comparables each have a fireplace. The parcels range in size from 7,798 to 15,769 square feet of land area. The comparables sold from June 2023 to January 2024 for prices ranging from \$352,000 to \$515,000 or from \$134.99 to \$178.37 per square foot of living area, including land. The board of review also submitted a copy of the listing sheet associated with the subject's 2022 sale for a price of \$408,000. Based on this evidence, the board of review requested an increase in the subject's assessment to reflect a market value of \$465,451, which represents the subject's 2022 sale price with the 2023 and 2024 equalization factors applied.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill. Admin. Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales, or construction costs. 86 Ill. Admin. Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine comparable sales to support their respective positions before the Property Tax Appeal Board. The Board gives less weight to the appellant's comparables #1, #2, #3, and #5, which differ from the subject in age and/or location. The Board also gives less weight to the board of review comparables #2 and #4, which differ from the subject in dwelling size.

¹ Procedural rule Sec. 1910.50(c)(1) provides that in all counties other than Cook, the three-year county wide assessment level as certified by the Department of Revenue will be considered. 86 Ill. Admin. Code §1910.50(c)(1). Prior to the drafting of this decision, the Department of Revenue has yet to publish figures for tax year 2024.

The Board finds the best evidence of market value to be the parties' remaining comparables, which sold proximate to the assessment date at issue and are similar to the subject in age, location, dwelling size, and features. These most similar comparables sold for prices ranging from \$385,000 to \$515,000 or from \$134.99 to \$171.67 per square foot of living area, including land. The subject's assessment reflects a market value of \$414,623 or \$153.56 per square foot of living area, including land, which is within the range established by the best comparable sales in this record. Based on this evidence and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds a reduction in the subject's assessment is not justified.

As to the board of review request to increase the subject's assessment, the Board finds the subject's estimated market value of \$414,623 or \$153.56 per square foot of living area, land included, is within the range of the three best comparable sales in the record. Of these three best comparables, the appellant's comparable #4 and the board of review's comparable #1 are most similar to the subject in dwelling size, garage, size, and age. These two most similar comparables sold for prices of \$385,000 and \$410,000 or for \$134.99 and \$143.76. Based on this record, the Board finds an increase in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
