

FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Paul Shapiro
DOCKET NO.: 24-01608.001-R-1
PARCEL NO.: 12-18-104-006

The parties of record before the Property Tax Appeal Board are Paul Shapiro, the appellant, by attorney Ronald Kingsley of Lake County Real Estate Tax Appeal, LLC in Hawthorn Woods; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$43,645
IMPR.:	\$121,806
TOTAL:	\$165,451

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 2,080 square feet of living area. The dwelling was constructed in 1996 and is approximately 28 years old. Features of the home include a basement, central air conditioning, a fireplace¹ and a 400 square foot garage. The property has an approximately 5,663 square foot site and is located in Lake Bluff, Shields Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on five comparable properties that have the same assessment neighborhood code as the subject. The comparables have sites that range in size from approximately 5,031 to 6,377 square feet of land area. The comparables are improved with two-

story dwellings of wood frame exterior construction ranging in size from 2,061 to 2,376 square feet of living area. The dwellings are from 27 to 31 years old. Each comparable has a basement, central air conditioning and a garage ranging in size from 400 to 441 square feet of building area. Four comparables each have a fireplace. The comparables sold from April 2022 to February 2023 for prices ranging from \$435,000 to \$490,500 or from \$206.44 to \$237.26 per square foot of living area, including land. Based on this evidence, the appellant requested the subject's total assessment be reduced to \$155,984, which would reflect a market value of \$467,999 or \$225.00 per square foot of living area, including land, when using the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$165,451. The subject's assessment reflects a market value of \$496,403 or \$238.66 per square foot of living area, land included, when using the statutory level of assessment of 33.33%.²

In support of its contention of the correct assessment the board of review submitted information on three comparable properties that have the same assessment neighborhood code as the subject.³ The comparables have sites that range in size from 5,017 to 6,969 square feet of land area. The comparables are improved with two-story dwellings of frame exterior construction ranging in size from 2,068 to 2,266 square feet of living area, including land. The comparables each have a basement, central air conditioning, and a garage ranging in size from 400 to 441 square feet of building area. The comparables sold from April 2023 to April 2024 for prices ranging from \$503,050 to \$530,000 or from \$225.07 to \$254.81 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #2, #4 and #5 which have sale dates that occurred in 2022, less proximate in time to the lien date at issue than other sales in the record.

² Procedural rule Sec. 1910.50(c)(1) provides that in all counties other than Cook, the three-year county wide assessment level as certified by the Department of Revenue will be considered. 86 Ill.Admin.Code Sec. 1910.50(c)(1). Prior to the drafting of this decision, the Department of Revenue has yet to publish figures for tax year 2024.

³ The board of review's evidence included an additional grid analysis prepared by the township assessor containing data of seven comparables, where comparables #1 through #3 are the same properties submitted by the board of review. The Board finds the additional four comparables were not included in the board of review's grid analysis and thus, they will not be further addressed in the Board's analysis.

The Board finds the appellant's comparable #3 and the three comparables submitted by the board of review sold more proximate in time to the January 1, 2024 assessment date. These four comparables have the same assessment neighborhood code as the subject and are similar to the subject in dwelling size, design, age and some features. The comparables sold from February 2023 to April 2024 for prices ranging from \$465,000 to \$530,000 or from \$225.07 to \$254.81 per square foot of living area, including land. The subject's assessment reflects a market value of \$496,403 or \$238.66 per square foot of living area, including land, which falls within the range established by the best comparable sales in the record both in terms of overall market value and on a price per square foot of living area basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the subject's estimated market value as reflected by its assessment is supported. Therefore, based on this record the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
