

FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Elango Ganesan
DOCKET NO.: 24-01905.001-R-1
PARCEL NO.: 15-24-305-011

The parties of record before the Property Tax Appeal Board are Elango Ganesan, the appellant, by attorney David Kieta, of Kieta Law LLC in Winfield; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$70,754
IMPR.:	\$136,346
TOTAL:	\$207,100

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of brick exterior construction with 2,633 square feet of living area. The dwelling was constructed in 1974 and is approximately 50 years old. Features of the home include a basement with finished area, central air conditioning, two fireplaces and a 576 square foot garage. The property has an approximately 21,344 square foot site and is located in Lincolnshire, Vernon Township, Lake County.

The appellant contends assessment inequity, with respect to the improvement assessment, as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in the same assessment neighborhood code and within 0.25 of a mile from the subject. The comparables are improved with 1-story dwellings of brick or frame exterior construction ranging in size from 2,363 to 2,714 square feet of living area. The homes range in age from 48 to 57 years old. Each comparable has a basement, four of which have finished area. Each dwelling has central air conditioning, one or two fireplaces and a garage

ranging in size from 529 to 792 square feet of building area. The comparables have improvement assessments ranging from \$117,590 to \$135,287 or from \$48.83 to \$50.26 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$130,675 or \$49.63 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$207,100. The subject has an improvement assessment of \$136,346 or \$51.78 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on five equity comparables located in the same assessment neighborhood code and within 0.26 of a mile from the subject property. The comparables are improved with 1-story or 2-story dwellings of frame or brick exterior construction ranging in size from 2,633 to 3,414 square feet of living area. The homes were built in 1975 or 1976. Each comparable has a basement, three of which have finished area. Each dwelling has central air conditioning, one or two fireplaces and a garage ranging in size from 520 to 576 square feet of building area. The comparables have improvement assessments ranging from \$159,496 to \$194,785 or from \$57.05 to \$64.48 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments, for the assessment year in question, of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted ten equity comparables for the Board's consideration. The Board gives less weight to appellant comparable #4 along with board of review comparables #3 and #4 which are less similar to the subject in design, dwelling size and/or feature an unfinished basement in contrast to the subject's finished basement.

The Board finds the best evidence of assessment equity to be appellant comparables #1, #2, #3 and #5 as well as board of review comparables #1, #2 and #5 which are more similar to the subject in location, age, design, dwelling size and most features. These comparables have improvement assessments ranging from \$117,590 to \$169,765 or from \$48.83 to \$64.48 per square foot of living area. The subject's improvement assessment of \$136,346 or \$51.78 per square foot of living area falls within the range established by the best comparables in this record. After considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
