

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Uptown Development LLC
DOCKET NO.: 24-02168.001-R-1
PARCEL NO.: 16-23-104-028

The parties of record before the Property Tax Appeal Board are Uptown Development LLC, the appellant, by attorney Arden Edelcup of Tax Appeals Lake County in Lake Zurich; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$45,888
IMPR.: \$108,280
TOTAL: \$154,168

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of stucco exterior construction with 1,968 square feet of living area. The dwelling was built in 1948 and is approximately 76 years old. The dwelling has an effective age of 1967 due to remodeling in 1988. Features of the home include a basement with finished area, central air conditioning and a garage with 209 square feet of building area. The property has a 7,320 square foot site and is located in Highland Park, Moraine Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that have the same assessment neighborhood code as the subject and are located within .53 of a mile from the subject property, one of which is located along the same street as the subject. The comparables are improved with two-story dwellings of wood or brick exterior

construction ranging in size from 2,112 to 2,231 square feet of living area. The dwellings were built from 1903 to 1955. Comparables #1 and #3 have effective ages of 1971 and 1963, respectively. The comparables each have a basement, one of which has finished area. Comparable #2 has central air conditioning and each comparable has a garage ranging in size from 360 to 528 square feet of building area. The comparables have improvement assessments that range from \$104,390 to \$115,449 or from \$46.79 to \$53.15 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$101,336 or \$51.49 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$154,168. The subject property has an improvement assessment of \$108,280 or \$55.02 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables that have the same assessment neighborhood code as the subject and are located within .27 of a mile from the subject property, one of which is also along the same street as the subject. The comparables are improved with two-story dwellings of brick or wood siding exterior construction ranging in size from 1,900 to 1,990 square feet of living area. The dwellings are from 99 to 104 years old. Each comparable has a basement. Two comparables each have central air conditioning and a garage with either 360 or 990 square feet of building area. Comparable #1 has a fireplace. The comparables have improvement assessments that range from \$107,119 to \$122,786 or from \$56.38 to \$62.48 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on six comparables for the Board's consideration. The Board has given less weight to the appellant's three comparables and board of review comparable #2, due to their larger dwelling sizes, when compared to the subject and/or they lack central air conditioning and/or a garage, both features of the subject.

The Board finds board of review comparables #1 and #3 are similar to the subject in location, dwelling size and design. However, the comparables have varying degrees of similarity when compared to the subject in age and other features, suggesting adjustments would be required to make the comparables more equivalent to the subject. The comparables have improvement assessments of \$119,964 and \$122,786 or \$61.70 and \$62.48 per square foot of living area. The subject's improvement assessment of \$108,280 or \$55.02 per square foot of living area falls below the two best comparables in this record both in terms of total improvement assessment and

on a per square foot of living area basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

Based on this record, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
