

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Pasquesi
DOCKET NO.: 24-02392.001-R-1
PARCEL NO.: 12-28-312-005

The parties of record before the Property Tax Appeal Board are James Pasquesi, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$115,570
IMPR.: \$197,313
TOTAL: \$312,883

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame exterior construction with 2,418 square feet of living area. The dwelling was constructed in 1951 and is approximately 73 years old. Features of the home include a basement, central air conditioning, a 500 square foot garage and a solarium amenity. The property has an approximately 11,805 square foot site and is located in Lake Forest, Shields Township, Lake County.

The appellant contends assessment inequity, with respect to the improvement assessment, as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject. The comparables are improved with 2-story dwellings of frame exterior construction ranging in size from 2,208 to 2,748 square feet of living area that are 29 to 61 years old. Each comparable has a basement, central air conditioning and a garage ranging in size from 480 to 550 square feet of

building area. The comparables have improvement assessments ranging from \$159,159 to \$180,314 or from \$60.35 to \$74.76 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$165,457 or \$68.43 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$312,883. The subject has an improvement assessment of \$197,313 or \$81.60 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on five equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story dwellings of frame exterior construction ranging in size from 2,327 to 2,542 square feet of living area that were built from 1963 to 1996. Each comparable has a basement, central air conditioning and a garage ranging in size from 506 to 713 square feet of building area. The comparables have improvement assessments ranging from \$197,000 to \$330,884 or from \$77.50 to \$130.78 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments, for the assessment year in question, of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives less weight to appellant comparables #2, #3 and #4 along with board of review comparables #1 through #4 which are substantially newer in age, ranging from 24 to 45 years newer than the subject which is 73 years old.

The Board finds the best evidence of assessment equity to be appellant comparable #1 and board of review comparable #5 which are more similar to the subject in age and some features, although both of these properties lack a solarium amenity, in contrast with the subject. These two comparables have improvement assessments of \$175,617 and \$197,000 or \$66.52 and \$77.50 per square foot of living area. The subject's improvement assessment of \$197,313 or \$81.60 per square foot of living area falls just above the two best comparables in the record on an overall improvement assessment basis and above the two best comparables on a per square foot basis. However, after considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
