

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Sandrof
DOCKET NO.: 24-02418.001-R-1
PARCEL NO.: 15-29-212-048

The parties of record before the Property Tax Appeal Board are David Sandrof, the appellant, by attorney David Kieta, of Kieta Law LLC in Winfield; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$36,658
IMPR.: \$123,817
TOTAL: \$160,475

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame exterior construction with 2,032 square feet of living area. The dwelling was constructed in 1983 and is approximately 41 years old. Features of the home include a basement, central air conditioning, one fireplace and a 399 square foot garage. The property has an approximately 7,244 square foot site and is located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends assessment inequity, with respect to the improvement assessment, as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in the same assessment neighborhood code as the subject. The comparables are improved with 2-story dwellings of frame exterior construction ranging in size from 2,188 to 2,218 square feet of living area and are each 41 years old. One comparable has a finished basement and four comparables have "NA" reported for basement in the grid analysis. Each dwelling has central air conditioning and a 399 or 420 square foot garage. Two homes

each have one fireplace. The comparables have improvement assessments ranging from \$109,229 to \$121,932 or from \$49.69 to \$55.47 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$109,037 or \$53.66 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$160,475. The subject has an improvement assessment of \$123,817 or \$60.93 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on five equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story dwellings of frame exterior construction with 1,842 or 2,198 square feet of living area that were built in 1983. Each comparable has a basement, central air conditioning and a 399 or 420 square foot garage. Two homes each have one fireplace. The comparables have improvement assessments ranging from \$115,375 to \$129,494 or from \$58.91 to \$63.42 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments, for the assessment year in question, of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted ten equity comparables for the Board's consideration. The Board finds the comparables submitted by the parties are similar to the subject in location, age, design with varying degrees of similarity to the subject in dwelling size and/or basement amenity. The comparables have improvement assessments ranging from \$109,229 to \$129,494 or from \$49.69 to \$63.42 per square foot of living area. The subject's improvement assessment of \$123,817 or \$60.93 per square foot of living area falls within the range established by the best comparables in this record. After considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which, appears to exist on the basis of the evidence in this record.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
