

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Yong Kang  
DOCKET NO.: 24-02518.001-R-1  
PARCEL NO.: 14-13-105-015

The parties of record before the Property Tax Appeal Board are Yong Kang, the appellant; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the Lake County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$89,167  
**IMPR.:** \$317,996  
**TOTAL:** \$407,163

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of brick exterior construction with 5,170 square feet of living area. The dwelling was constructed in 2005 and is approximately 19 years old. Features of the home include a basement, central air conditioning, two fireplaces and a garage with 1,010 square feet of building area. The property has a 40,138 square foot site and is located in Long Grove, Ela Township, Lake County.

The appellant contends assessment inequity, with respect to the improvement assessment, as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that have the same assessment neighborhood code as the subject and are located within .20 of a mile from the subject property. The comparables are improved with two-story dwellings of brick exterior construction ranging in size from 6,309 to 7,162 square feet of living area. The dwellings are each 19 years old. Each comparable has a basement, central air conditioning, two or three fireplaces and a garage ranging in size from 926 to 1,397 square feet

of building area. The comparables have improvement assessments that range from \$287,391 to \$421,250 or from \$45.55 to \$58.82 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$284,703 or \$55.07 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$407,163. The subject has an improvement assessment of \$317,996 or \$61.51 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on seven equity comparables that have the same assessment neighborhood code as the subject and are located within .27 of a mile from the subject property. The comparables are improved with two-story dwellings of brick exterior construction ranging in size from 4,924 to 5,320 square feet of living area. The dwellings were built from 2004 to 2006. Each comparable has a basement, central air conditioning, two or three fireplaces and a garage ranging in size from 897 to 1,150 square feet of building area. The comparables have improvement assessments ranging in size from \$308,942 to \$334,551 or from \$61.37 to \$63.76 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains ten equity comparables for the Board's consideration. The Board has given less weight to the appellant's comparables due to their substantially larger dwelling sizes, when compared to the subject.

The Board finds the best evidence of assessment equity to be the seven comparables submitted by the board of review, which are overall more similar to the subject in location, dwelling size, design, age and some features. The comparables have improvement assessments ranging from \$308,942 to \$334,551 or from \$61.37 to \$63.76 per square foot of living area. The subject's improvement assessment of \$317,996 or \$61.51 per square foot of living area falls within the range established by the best comparables in this record both in terms of overall improvement assessment and on a per square foot of living area basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed. Based on this record, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
