

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: North Creek Investments & RE Holdings Inc
DOCKET NO.: 24-03157.001-R-1
PARCEL NO.: 07-1-08144-000

The parties of record before the Property Tax Appeal Board are North Creek Investments & RE Holdings Inc, the appellant, by attorney Lee Waite, of Dilsaver, Nelson & Waite in Mattoon; and the Coles County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Coles** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,388
IMPR.: \$7,612
TOTAL: \$9,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Coles County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of vinyl siding exterior construction with 1,014 square feet of living area. The dwelling is approximately 107 years old. Features of the home include a crawl space foundation and central air conditioning.¹ The property has a 7,000 square foot site and is located in Mattoon, Mattoon Township, Coles County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an appraisal estimating the subject property had a market value of \$27,000 as of January 1, 2024. The appraisal was prepared by Brian N. Finley, a certified general real

¹ Although the appraiser reported the subject has a 1-car garage in the descriptive data of the report, the appraiser did not include a garage amenity in the adjustment grid and the board of review reported the subject does not have a garage. Based on this record, the Board finds the subject does not have a garage.

estate appraiser, to establish a retrospective market value. The appraiser inspected the exterior of the subject on January 29, 2025.

Under the sales comparison approach, the appraiser selected three comparable sales located from 1.09 to 1.22 miles from the subject. The parcels range in size from 6,000 to 9,543 square feet of land area and are improved with bungalow style homes ranging in size from 912 to 936 square feet of living area. The homes range in age from 79 to 106 years old. Two homes have central air conditioning and one comparable has a 1-car garage. The comparables sold from July 2021 to November 2023 for prices ranging from \$25,000 to \$30,000 or from \$26.94 to \$32.05 per square foot of living area, including land. The appraiser adjusted the comparables for differences from the subject to arrive at adjusted prices from \$24,000 to \$30,000. Primary weight was given to appraisal sale #1, with secondary weight to the other two sales. The appraiser concluded a value of \$27,000 under the sales comparison approach.

Under the income approach, the appraiser selected eleven rent comparables with monthly rents from \$385 to \$700, a median gross rent multiplier of 61.54, and an average gross rent multiplier of 63.14. The appraiser estimated monthly rent for the subject of \$600 and a gross rent multiplier of 55. The appraiser computed a value of \$33,000 for the subject under the income approach. The appraiser gave little weight to the income approach as the subject is located in a primarily owner-occupied residential area.

Based on this analysis, the appraiser concluded a value for the subject of \$27,000 as of January 1, 2024. The appellant requested a reduction in the subject's assessment to reflect the appraised value conclusion.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$16,622. The subject's assessment reflects a market value of \$49,871 or \$49.18 per square foot of living area, land included, when using the statutory level of assessment of 33.33%.² In support of its contention of the correct assessment the board of review submitted information on three comparable sales located from 0.5 of a mile to 1.9 miles from the subject. The parcels range in size from 7,000 to 7,500 square feet of land area and are improved with 1-story homes ranging in size from 963 to 1,120 square feet of living area. The dwellings range in age from 104 to 114 years old. Each home has a crawl space foundation and central air conditioning. One comparable has a 960 square foot garage. The comparables sold from August 2021 to June 2022 for prices of \$70,000 and \$75,000 or from \$62.50 to \$72.69 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must

² Section 1910.50(c)(1) of the Board's procedural rules provides that in all counties other than Cook, the three-year county wide assessment level as certified by the Department of Revenue will be considered. 86 Ill. Admin. Code § 1910.50(c)(1). As of the development of this Final Administrative decision, the Department of Revenue has not published figures for tax year 2024.

be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The appellant presented an appraisal and the board of review presented three comparable sales in support of their respective positions before the Board. The Board finds the best evidence of market value to be the appraisal submitted by the appellant. The appraiser gave most weight to appraisal sale #1 which sold in 2023, the most proximate sale to the assessment date, and made appropriate adjustments to the comparables for differences from the subject. The Board gave less weight to the board of review's comparables #1 and #2, which are located more distant from the subject than the other sales in this record. The Board finds the one remaining board of review sale does not overcome the appraised value conclusion.

The subject's assessment reflects a market value of \$49,871 or \$49.18 per square foot of living area, including land, which is above the appraised value conclusion. The Board finds the subject property had a market value of \$27,000 as of the assessment date at issue. Based on this evidence the Board finds a reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
