

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Janak Dave  
DOCKET NO.: 24-04130.001-R-1  
PARCEL NO.: 02-14-405-009

The parties of record before the Property Tax Appeal Board are Janak Dave, the appellant, by attorney David Kieta, of Kieta Law LLC, in Winfield, and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$52,313  
**IMPR.:** \$222,451  
**TOTAL:** \$274,764

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of masonry exterior construction with 4,454 square feet of living area. The dwelling was constructed in 2001 and is approximately 23 years old. Features of the home include a basement, 4 bathrooms, central air conditioning, a fireplace, and a three-car garage. The property has a 13,071 square foot site and is located in Bloomingdale, Bloomingdale Township, DuPage County.

The appellant contends assessment inequity as the basis of the appeal concerning the improvement assessment. In support of this argument, the appellant submitted information on five equity comparables located in the same assessment neighborhood code and within .22 of a mile from the subject. The properties are improved with two-story dwellings of frame and brick exterior construction. The homes are 19 to 23 years old and range in size from 4,397 to 4,690 square feet of living area. Each comparable has a basement, 3½ or 4 bathrooms, central air conditioning, a fireplace, and a three-car garage. The comparables have improvement

assessments ranging from \$215,179 to \$222,680 or from \$47.48 to \$48.94 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$215,350 or \$48.35 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$274,764. The subject property has an improvement assessment of \$222,451 or \$49.94 per square foot of living area.

In a memorandum, the board of review noted the primary difference between the subject and the appellant's comparables was differing exterior construction.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject. The comparables consist of two-story dwellings of masonry or frame and masonry exterior construction which range in age from 21 to 23 years old. The homes contain either 4,246 or 4,349 square feet of living area. Features include basements, 4 or 5 bathrooms, central air conditioning, a fireplace, and a three-car garage. The comparables have improvement assessments ranging from \$212,259 to \$218,591 or from \$49.99 to \$51.01 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables to support their respective positions before the Property Tax Appeal Board. Each of the comparables presented by the parties range in age from 19 to 23 years old, as compared to the subject of 23 years, suggesting adjustments to these comparables to make them more equivalent to the subject. The homes are similar to the subject in having a basement foundation, central air conditioning, a fireplace and a three-car garage. Adjustments to the comparables are necessary for differences in dwelling size, bathroom count, and/or basement size when compared to the subject. These comparables have improvement assessments ranging from \$212,259 to \$222,680 or from \$47.48 to \$51.01 per square foot of living area. The subject's improvement assessment of \$222,451 or \$49.94 per square foot of living area falls within the range established by the best comparables in this record both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by

the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
