

## FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Michael Goworowski  
DOCKET NO.: 24-04149.001-R-1  
PARCEL NO.: 08-20-416-028

The parties of record before the Property Tax Appeal Board are Michael Goworowski, the appellant, by attorney David Kieta, of Kieta Law LLC, in Winfield, and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

<b>LAND:</b>	\$75,012
<b>IMPR.:</b>	\$188,406
<b>TOTAL:</b>	\$263,418

Subject only to the State multiplier as applicable.

### **Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

### **Findings of Fact**

The subject property consists of a part two-story and part one-story dwelling of brick exterior construction with 3,554 square feet of living area. The dwelling was constructed in 1985 and is approximately 39 years old. Features of the home include a basement with 1,731 square feet of finished area, 3½ bathrooms, central air conditioning, a fireplace, and a 704 square foot garage.<sup>1</sup> The property has an approximately 13,500 square foot site and is located in Naperville, Lisle Township, DuPage County.

The appellant contends assessment inequity as the basis of the appeal concerning the improvement assessment. In support of this argument, the appellant submitted information on six equity comparables located in the same assessment neighborhood code and within .23 of a

mile from the subject. The properties are improved with two-story dwellings which are 38 or 39 years old. The dwellings range in size from 3,504 to 3,606 square feet of living area. Each comparable has a basement, two of which have finished area. Features include 2½ or 3 bathrooms, two fireplaces, and a garage ranging in size from 666 to 713 square feet of building area. The comparables have improvement assessments ranging from \$164,213 to \$182,467 or from \$45.54 to \$51.08 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$175,745 or \$49.45 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$263,418. The subject property has an improvement assessment of \$188,406 or \$53.01 per square foot of living area.

As part of its submission, the board of review set forth the appellant's comparables in a two-page grid analysis reporting the homes were either two-story or part two-story and part one-story dwellings of frame exterior construction with central air conditioning and one or two fireplaces for each comparable.

In support of its contention of the correct assessment, the board of review submitted information on six equity comparables located in the same neighborhood code and within .22 of a mile from the subject. The comparables consist of part two-story and part one-story dwellings of frame exterior construction which are 37 to 39 years old. The homes range in size from 3,436 to 3,787 square feet of living area. Features include basements with finished area, 2½, 3½, or 4 bathrooms, central air conditioning, one or two fireplaces, and a garage ranging in size from 630 to 805 square feet of building area. The comparables have improvement assessments ranging from \$189,074 to \$210,758 or from \$53.32 to \$57.47 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of twelve equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellant's comparables #1, #2, #3 and #6, due to the lack of finished basement area, which is a feature of the subject.

The Board finds the best equity evidence in the record consists of the appellant's comparables #4 and #5 as well as the board of review comparables, which range in age from 37 to 39 years old, somewhat similar to the subject of 39 years, suggesting minor adjustments to some of the

comparables are necessary to make them more equivalent to the subject. The homes are similar to the subject in having basement foundations, central air conditioning, fireplace amenity, and a garage. Adjustments to the comparables are necessary for differences in dwelling size, basement size, size of basement finished area, bathroom count, fireplace count, and/or garage size when compared to the subject. These comparables have improvement assessments ranging from \$177,109 to \$210,758 or from \$50.54 to \$57.47 per square foot of living area. The subject's improvement assessment of \$188,406 or \$53.01 per square foot of living area falls within the range established by the best comparables in this record both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
