

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Vera A. Gibbons
DOCKET NO.: 24-21847.001-R-1
PARCEL NO.: 28-21-205-008-0000

The parties of record before the Property Tax Appeal Board are Vera A. Gibbons, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,360
IMPR.: \$19,513
TOTAL: \$24,873

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame exterior construction with 2,828 square feet of living area. The home is approximately 104 years old. Features include a full basement. The property has a 13,400 square foot site and is located in Oak Forest, Bremen Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables, none of which are located within the subject's assessment neighborhood. The comparables are improved with 2-story, class 2-06 dwellings of frame or frame and masonry exterior construction ranging in size from 2,223 to 2,817 square feet of living area. The homes range in age from 66 to 92 years old. Two comparables each have a slab or crawl space

foundation and two comparables each have a full or partial basement. One comparable has central air conditioning. Each comparable has from a 1.5-car to a 3-car garage. The comparables have improvement assessments ranging from \$10,500 to \$14,339 or from \$4.03 to \$5.09 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$24,873. The subject property has an improvement assessment of \$19,513 or \$6.90 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables, none of which are located within the subject's assessment neighborhood. Comparables #3 and #4 are reported to be located in Tinley Park. The comparables are improved with 2-story, class 2-06 dwellings of frame or frame and masonry exterior construction ranging in size from 2,401 to 3,041 square feet of living area. The homes range in age from 69 to 122 years old. Three comparables have a full or partial basement and one comparable has a crawl space foundation. Three comparables each have central air conditioning. Each comparable has from a 1-car to a 4-car garage. The comparables have improvement assessments ranging from \$20,907 to \$31,222 or from \$8.30 to \$10.94 per square foot of living area. The board of review asserts that "very limited" comparables are available near the subject.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested equity comparables for the Board's consideration, none of which are located in the subject's assessment neighborhood. Further, the Board finds none of the parties' comparables are truly similar to the subject due to differences from the subject in location, age, dwelling size, and features. The parties' comparables would require appropriate adjustments for these differences, when compared to the subject, to make them more equivalent to the subject. The comparables have improvement assessments ranging from \$10,500 to \$31,222 or from \$4.03 to \$10.94 per square foot of living area. The subject's improvement assessment of \$19,513 or \$6.90 per square foot of living area falls within the range established by the comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate by clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
