

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Benjamin Ko
DOCKET NO.: 24-23529.001-R-1
PARCEL NO.: 16-06-409-003-0000

The parties of record before the Property Tax Appeal Board are Benjamin Ko, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,750
IMPR.: \$69,620
TOTAL: \$78,370

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of stucco exterior construction with 3,129 square feet of living area. The dwelling is approximately 106 years old. The home features a full basement with finished area, central air conditioning, a fireplace and a 2-car garage. The property has a 6,250 square foot site and is located in Oak Park, Oak Park Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located within .3 of a mile from the subject property. The comparables are class 2-06 properties that are improved with two-story dwellings of frame or stucco exterior construction ranging in size from

2,697 to 3,600 square feet of living area. The dwellings are from 110 to 127 years old. The comparables each have a full basement, central air conditioning and a fireplace. Three comparables each have a 1-car or a 2-car garage. The comparables have improvement assessments that range from \$54,695 to \$75,030 or from \$19.09 to \$20.84 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$63,331 or \$20.24 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$78,370. The subject property has an improvement assessment of \$69,620 or \$22.25 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables that have the same assessment neighborhood code as the subject and are located within the same block or approximately $\frac{1}{4}$ of a mile from the subject property, three of which are also along the same street as the subject. The comparables are class 2-06 properties that are improved with two-story dwellings of stucco exterior construction ranging in size from 2,580 to 2,948 square feet of living area. The dwellings are from 104 to 112 years old. The comparables each have a full basement, a fireplace and either a 1.5-car or a 2-car garage. Three comparables have central air conditioning. The comparables have improvement assessments that range from \$62,281 to \$69,250 or from \$22.99 to \$24.52 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #2 and #4, as well as board of review comparable #4 which are less similar to the subject in dwelling size than the other comparables in the record.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #3, along with board of review comparables #1, #2 and #3, which are overall more similar to the subject in location, dwelling size, design and age. However, the Board finds the appellant's comparable #1 lacks a garage and board of review comparable #1 lacks central air conditioning, both features of the subject. Additionally, none of the comparables were reported to have basement finish, like the subject. These differences suggest upward adjustments would be necessary to make the comparables more equivalent to the subject. Nevertheless, the comparables have improvement assessments ranging from \$57,689 to \$69,250 or from \$19.09 to \$24.52 per square foot of living area. The subject's improvement assessment of \$69,620 or

\$22.25 per square foot of living area falls somewhat above the range established by the best comparables in the record in terms of overall improvement assessment but within the range on a per square foot of living area basis. The subject's higher overall improvement assessment appears to be logical given its superior features. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
