

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Jamieson
DOCKET NO.: 24-24283.001-R-1
PARCEL NO.: 05-27-302-015-0000

The parties of record before the Property Tax Appeal Board are Michael Jamieson, the appellant, by attorney Kyle Gordon Kamego, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$48,400
IMPR.: \$110,730
TOTAL: \$159,130

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of stucco exterior construction with 3,813 square feet of living area. The home is approximately 111 years old. Features include a full basement, central air conditioning, one fireplace, and a 3-car garage. The property has a 17,600 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood code. The comparables are improved with 2-story, class 2-06 dwellings of stucco exterior construction ranging in size from 3,928 to 4,260 square feet of living area. The homes range in age from 105 to 125 years old.

The comparables each have a full basement with the appellant reporting in the grid analysis that the finished basement area is "N/A." Each comparable has central air conditioning, one or two fireplaces, and a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$94,838 to \$110,206 or from \$22.93 to \$25.91 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$159,130. The subject property has an improvement assessment of \$110,730 or \$29.04 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood code. The comparables are improved with 2-story, class 2-06 dwellings of stucco exterior construction ranging in size from 3,335 to 4,210 square feet of living area. The homes range in age from 102 to 112 years old. Each comparable has a full or partial basement and a 2-car or a 2.5-car garage. Three comparables each have central air conditioning and one or two fireplaces. The comparables have improvement assessments ranging from \$115,800 to \$141,357 or from \$33.38 to \$37.73 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration with the same neighborhood code, design, and classification as the subject. The Board finds each of the parties' comparables to be relatively similar to the subject in age, dwelling size, and most features. The comparables have improvement assessments ranging from \$94,838 to \$141,357 or from \$22.93 to \$37.73 per square foot of living area. The subject's improvement assessment of \$110,730 or \$29.04 per square foot of living area falls within the range established by the comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
